YEP, THAT'LL REALLY HELP YOU GET ACROSS LATING THIS LAKE.

WHEN YOUR CAR CAN'T, SUBARU CAN.

Other 4x4s come with unnecessary extras like Levitating Gear Sticks and Interior Mood Lighting. However, at Subaru we think you'd prefer our **Symmetrical All-Wheel Drive** technology that comes as standard[†]. Meaning you'll have a grip on all terrains – mud, wet fields, sand, snow and ice. So if you'd rather go places others can't, maybe it's time you look at a Subaru instead.

Our **Symmetrical All-Wheel Drive technology,** comes as standard throughout the range[†] starting from just **£17,495*.** To discover more visit, **Subaru.co.uk**

The most popular version with UK buyers is likely to be the E220 d, which is claimed to average more than 72mpg

THE PREVIOUS MODEL Mercedes-Benz E-Class was launched back in 2009, and despite a comprehensive facelift in 2013, it was beginning to look and feel dated.

Mercedes has responded with an E-Class that features recordbreaking aerodynamics, a cabin packed with new technology and an efficient range of engines.

That's fortunate because the new E-Class enters the executive market at a time when the competition is fiercer and more varied than ever. As well as established rivals, such as the BMW 5 Series, our large executive car of the year, there's the Audi A6, the new Jaguar XF and the forthcoming Volvo S90, too.

The fifth generation E-Class is longer, narrower and lower than the car it replaces, and has more space between the front and rear axles, providing more cabin and luggage space. It's styled to fit in with the rest of Merc's current line-up, and the more stylish shape is a deliberate bid to pitch the car towards younger buyers.

The slippery shape of the new E-Class also leads to sizeable fuel savings. It's also significantly lighter than before, by as much as 100kg, depending on the engine and trim level specified.

Radical new interior

As standard, E-Class models have either an 8.4in or 12.3in central infotainment and navigation system, depending on trim. The options list, however, offers the chance to upgrade to dual 12.3in screens that are housed within a single display unit – an all-digital approach pioneered by the

'The E-Class features record-breaking aerodynamics and a cabin packed with new technology'

company's S-Class luxury car. The screens are controlled either by new touch-sensitive pads on the steering wheel, a speech-recognition system or by a touch/rotary controller housed in the centre console.

Drivers can choose between three pre-set themes for the infotainment system and instrument cluster, dubbed Classic, Sport and Progressive. Each changes both the look of the system, and the content displayed.

Two trim levels will be offered in the UK: SE and AMG Line. Standard equipment on SE models is extensive, and includes satellite navigation, all-round parking sensors with a reverse parking camera, a collision warning system, autonomous parking and emergency braking, configurable interior lighting, dual-zone climate control, heated front seats and 17in alloy wheels.

Extra equipment on top-end AMG Line models includes a >>

Seat heating and cooling, and a high-end audio system, will all be options

Mercedes says the extremely aerodynamic shape of the new E-Class helps it achieve a CO₂ figure of 102g/km, yet cabin and luggage space are increased

HOW IT MEASURES UP

Audi A6

Classy, roomy and good value for money - the Audi A6 is an impressive executive saloon

Price from £32,295 Length 4930mm Width 2090mm Height 1460mm

BMW 5 Series ****

Classy, spacious and refined, the 5 Series is the benchmark by which the new E-Class will be judged

Price from £33,380 Length 4910mm Width 2100mm Height 1460mm

Jaguar XF ****

A fine mix of sporting saloon and luxury limousine. Great to drive and well equipped

Price from £32.300 Length 4954mm Width 2091mm Height 1457mm

Lexus GS ***

Company car drivers will be familiar with the GS, especially the 300h hybrid version. It's a decent choice

Price from £31,495 Length 4879mm **Width** 1839mm Height 1455mm

Mercedes-Benz E-Class ****

A packed interior, efficient engines and stylish design should make the new E-Class a real contender

Price from £35,935 Length 4920mm Width 2070mm Height 1470mm

bodykit, 19in alloy wheels and a different steering wheel. The options list is broken down into two packages: Premium and Premium Plus. The former includes a panoramic glass roof, keyless start and electrically adjustable memory front seats; the latter adds upgraded LED headlights and a 13-speaker sound system. Other features include the Air Body Control system. This allows drivers to adjust the stiffness of the suspension, as well as ride height and self-levelling properties through four modes: Comfort, Eco, Sport and Sport Plus.

Hybrid model planned

At launch, two engines will be available, although others will appear shortly after.

The E220 d uses a four-cylinder 2.0-litre diesel engine that produces 192bhp and 295lb ft of torque, and is coupled to the firm's nine-speed automatic gearbox. Mercedes says the E220 d is capable of returning an average of 72.4mpg, with CO₂ emissions from 102g/km. It can reach 62mph from a standing start in 7.3sec - that's 0.4sec faster than the equivalent outgoing E-Class.

The E350 d, meanwhile, has a new 3.0-litre straight-six diesel engine producing 254bhp and 457lb ft of torque. With this engine, the E-Class can sprint to 62mph in 5.9sec, average 55.2mpg and emit 133g/km of CO₂. First deliveries of the E350 d are planned for the summer.

Later this year a dedicated plug-in hybrid model, dubbed E350 e, will join the range. It mates a 2.0-litre turbocharged petrol engine with an electric motor, and is capable of

'Mercedes is also planning to launch a more rugged version to rival the Audi A6 Allroad'

travelling up to 19 miles on electric power alone. Combined, the E350 e produces 275bhp and 443lb ft, and officially it emits 49g/km of CO₂ and returns an average of 134.5mpg. It can also hit 62mph in 6.2sec.

Other engines scheduled to join the range include a 2.0-litre diesel with 148bhp, a 2.0-litre petrol with 181bhp, a more powerful version of the same engine with 242bhp and a twin-turbocharged 3.0-litre V6 petrol engine with 328bhp. The range-topping Mercedes-AMG E63, which is expected to go on sale later this year, will come with a twinturbocharged 4.0-litre V8 petrol engine developing around 580bhp.

Prices start at £35,935 for the E220 d SE, and rise to £38,430 for the same car in AMG Line trim. The E350 d costs £44,930 in SE form and rises to £47,425. By comparison, BMW's 520d SE is £32,615, and the Audi A6 2.0 TDI Ultra SE is £34,345. Online discounts on the current E-Class range from £6000 to £10,000 and we'd expect similar savings on the new model in time.

WIDE SCREENS

Two large screens in the dashboard show all the important information, and contain infotainment controls

CUSTOMISABLE LOOK

There are three screen modes, all of which have a distinct look and display different information

CLASSY LOOK AND FEEL

A high quality interior is promised trimmed in a range of materials from man-made leather to real hide

PASSENGER ROOM

There will be loads of leg and head room for occupants, and plenty of space to store oddments

Greater length between the front and rear axles means more rear leg room

Swooping roofline of E-Class is similar to the C-Class and flagship S-Class

Rugged estate model planned

Mercedes-Benz plans to launch a rugged version of the E-Class Estate later this year as a rival to the likes of the Audi A6 Allroad.

In a departure from previous versions of the E-Class Estate, the car will be offered in two distinct styles, and will come both as an on-road model and as an all-terrain version. The all-terrain model will feature a raised ride height and will come with four-wheel drive as standard.

Volkswagen Tiguan

First look Volkswagen's new small SUV grows up to compete with premium rivals **On sale** Summer 2016 **Price from** £23,000 (est)

THE ORIGINAL TIGUAN capitalised on the burgeoning small SUV market. Volkswagen has made this second-generation model larger all round and given it bolder exterior styling and a more upmarket cabin. This equips it to tackle rivals such as the class-leading Nissan Qashqai.

Bigger, both outside and in

The new car is built on the same platform that underpins the Golf and Passat. It is 63mm longer, 29mm wider and 22mm lower than the current Tiguan, which translates into greater interior

space: rear leg room is up by 20mm, and boot capacity has grown to 615 litres with the rear seats in place, a hike of 145 litres.

The increased dimensions have also helped to improve the Tiguan's practicality, as have the addition of a couple of new features in the cabin: the rear seats can be slid backwards and forwards by 120mm and the boot lip is lower than the outgoing car's to make loading and unloading easier. There's also the option of a hands-free, electrically operated tailgate.

Higher quality, more tech

Volkswagen has worked extremely hard to push the Tiguan further upmarket, so has increased both the style and quality of the cabin. The interior and dashboard feature premium materials, and there's a large touchscreen infotainment system.

Full UK specifications are yet to be confirmed, but it has been announced that all new Tiguans will come with a range of safety systems as standard. These include autonomous emergency braking and Volkswagen's Land Assist and Driver Alert systems. A variety of infotainment options will be available, with many offering compatibility with Apple CarPlay and Android Auto. Other options will include a digital instrument panel (as seen on the Audi TT and Audi A4), a head-up display and a three-zone climate control system.

Wide range of engines

At launch, UK buyers will have a choice of seven engines: four petrols and three diesels. Two- and four-wheel-drive models will be available and there will be a choice

'VW is pushing the Tiguan upmarket, so has increased the style and quality of the cabin'

of six-speed manual and DSG automatic gearboxes.

Petrol-buyers will choose from 1.4-litre units that produce either 123bhp or 148bhp and 2.0-litre engines with outputs of 178bhp and 217bhp. Those opting for diesel power can choose from 2.0-litre units with 148bhp, 188bhp or a range-topping 236bhp.

Volkswagen will release fuel economy figures closer to the on-sale date, but initial reports suggest the new model will be up to 24% more economical than before.

The entry-level petrol will be front-wheel drive only. All other versions will be available with four-wheel drive, either as an option or as standard. Models with the 4motion four-wheel drive system have slightly improved ground clearance – 200mm instead of 189mm. They also come with a system that allows the driver to choose from a variety of driving modes for all conditions, including snow and off-roading.

Finally, the new Tiguan has vastly improved towing capacity: it can pull up to 2500kg. That's 300kg more than a Passat Estate and 700kg more than a Nissan Qashqai.

Priced to be competitive

There's no word on pricing yet but we expect the range to start from less than £23,000. Car brokers regularly offer deals with around £3000 off the price of the current car, and we'd expect similar savings to be available on the new model.

That competitive starting price pits the Tiguan against the Hyundai Tucson and Nissan Qashqai, but the use of premium materials and high-end options may make it appear better value than these rivals. It also indicates that VW is also hoping to steal customers from the BMW X1 and Volvo XC60.

Read our Reader Test Team verdict on the new Tiguan on page 40

Matthew Burrow
Matthew.Burrow@haymarket.com

Classier trims have been used, and they're better screwed together

PEUGEOT 108

DS₃

First look Premium hatchback has taken a step upmarket with fresh looks, new engine options and improved tech On sale Now Price from £13,995 (est)

The style continues inside, where chic design abounds

Climate control and a reversing camera can be specified

FOLLOWING CITROËN'S DECISION in 2014 to spin off DS as a standalone car brand, this new model, available as either a hatchback or a cabriolet, has made a step upmarket as part of a push into the premium car sector to rival the likes of Audi.

The previous DS 3 earned a three-star rating in What Car? under its Citroën badge, but since that car's launch in 2010, premium hatchbacks have progressed a lot.

Consequently, although the new DS 3 is based on the same underpinnings as its predecessor, it is a much-changed car, with a glitzy new design both inside and out, enhanced connectivity and revised engine and transmission options.

The front of the car wears the new DS corporate look, which includes chrome 'wings' that extend from a deep-set grille to the swept-back LED headlights. Further back, the 3 retains some of the original car's distinctive design features, including the floating roof and the shark fin C-pillars.

Engine options

Seven engines will be offered in the UK: three versions of the Puretech three-cylinder petrol engine and two THP 1.6 four-cylinder units. There will also be a brace of BlueHDi diesels. Transmission choices are a six-speed manual or a new automatic gearbox.

The Puretech 130 engine is available in the DS 3 for the first

'There are more than three million combinations of roof, body and mirror colours'

time. It produces 128bhp at 5500rpm and 170lb ft of torque, with fuel consumption of 62.8mpg. The cleanest variant is the DS 3 BlueHDi 100, which produces 99bhp and emits 87g/km of CO₂.

Topping the range for keen drivers is the DS 3 Performance, a sporty variant powered by a 205bhp 1.6 petrol engine. This version gets tweaks to the six-speed manual

transmission and suspension, and a limited-slip differential to enhance its performance, as well as a raft of styling tweaks inside and out.

New tech inside

There are new trims and interior design schemes, but the biggest news here is an upgrade in technology. The 3 gets a new 7.0in colour touchscreen that provides easier access to all vehicle functions. There's a simplified central fascia, with 20 fewer buttons. The system has Mirror Screen functionality, meaning compatible smartphone apps can be operated via the touchscreen.

New driver assistance systems include front and rear parking sensors, a reversing camera and, for cars equipped with a manual gearbox, hill start assist.

The open-top version's fabric roof can be opened and closed at up to 70mph, and the position of the roof has no effect on boot volume; it remains unchanged from the previous car's 285 litres in the hatch and 245 litres in the cabriolet.

The potential for personalisation is vast: there are more than three million combinations of roof, body, mirror housings, dashboard and gearknob variations to choose from. On offer will be 78 body/roof colour combinations for the hatchback and four variations of fabric roof for the cabriolet.

Prices are set to rise across the range to reflect the increased levels of kit and technology. The entrylevel Puretech 1.2-litre petrol model will cost around £700 more than the outgoing car, putting it at just less than £14,000.

Audi A4 Allroad

First look Latest version of Audi's jacked-up A4 estate features chunky styling and four-wheel drive On sale Summer 2016 Price from £34.000 (est)

As with every new A4, the Allroad is sumptuously finished

Higher ride height will give Allroad greater off-road ability

THE MARKET FOR high-riding, pseudo off-road estate cars is well catered for, with the likes of the Seat Leon Xperience, Skoda Octavia Scout and Volkswagen Passat Alltrack proving popular with buyers. Audi has been a player in this market for longer than all of these though, with its own range of Allroad models based on the A4 and A6 Avants.

The launch of a new A4, then, brings with it a brand new A4 Allroad quattro, which made its debut at the Detroit motor show in January and will hit UK showrooms in the summer.

Chunky styling

Audi has given the A4 Allroad quattro a ride height 23mm higher than the standard A4 Avant's, while ground clearance is up by 34mm. Larger 19in alloy wheels, chunky body cladding, roof sills and a modified grille, give the A4 Allroad suitably rugged looks, too.

This new Allroad is longer, wider and lower than the car it replaces,

and comes with a wheelbase stretched by 13mm, slightly improving cabin space. Despite the larger dimensions, Audi says it's up to 90kg lighter than the outgoing Allroad, with the lightest model in the range tipping the scales at 1580kg.

Powerful and efficient engines

As its name suggests, the Allroad comes with Audi's quattro fourwheel drive system as standard.

From launch, it will be powered by a range of petrol and diesel engines, with a 187bhp version of Audi's familiar 2.0-litre fourcylinder diesel engine leading the range. When coupled to the S tronic auto 'box, the engine can propel the A4 to 62mph in 7.8sec, before hitting its top speed of 136mph. It's claimed to return up to 57.7mpg with 128g/km of CO₂ emissions.

Shortly after the car's launch in the UK, a second variant of the same engine, this time producing 148bhp and 234lb ft of torque, will also join the range.

At the top of the range is Audi's 3.0-litre V6 diesel powertrain, in 215bhp and 268bhp forms. We know the 215bhp V6 is great, having named the A4 3.0-litre TDI 218 Sport as our Car of the Year 2016. The 268bhp version, meanwhile, is capable of reaching 62mph in 5.5sec while returning a claimed 53.3mpg.

The petrol engine range is led by a 249bhp version of Audi's 2.0-litre,

'The Drive Select system has been updated to include a new off-road function'

four-cylinder engine. It can return 44.1mpg while emitting 147g/km.

Depending on engine, buyers can choose between either a six-speed manual transmission, or the S tronic automatic.

Off-road inspired extras

While the Allroad's cabin is almost identical to that of the A4 Avant, Audi's Drive Select system has been updated to include extra functions. A new off-road mode features alongside the regular Comfort, Auto, Dynamic and Efficiency options. It adjusts the engine mapping, gearbox, steering and suspension settings.

A full equipment list won't be revealed until closer to the Allroad's launch, but we expect it to almost mirror the A4 Avant. That means lots of kit, and the option of Audi's Virtual Cockpit system. Prices for the Allroad are expected to start at less than £1500 above the outgoing car, so we expect similar discounts of up to £7500 to appear in time.

Jaguar XF AWD

First look Jaguar's new executive saloon gets the option of four-wheel drive to take on rivals from Audi and BMW

On sale Now Price from £36.350

JAGUAR ALREADY HAS all-wheeldrive versions of its F-Type, XJ and XE, so it's little surprise to see the British car maker adding the same option to the XF.

The XF AWD comes exclusively with the 178bhp version of Jaguar's four-cylinder diesel engine, mated to an eight-speed automatic gearbox. The car weighs about 105kg more than its two-wheeldrive equivalent, but it's still one of the lighter all-wheel-drive diesels in its class. The company attributes this to its lightweight aluminium platform.

Thirstier, but more secure

The four-wheel-drive XF takes 7.9sec to sprint from 0-60mph, two-tenths slower than the corresponding rear-wheel-drive model. Top speed, however, remains identical at 136mph.

Factor in the additional mechanical drag of the car's four-wheel-drive system as well as that weight penalty, and it was

inevitable that the AWD XF would have worse fuel economy than its sister car. It achieves a claimed 57.6mpg, which is 8.1mpg down on its rear-driven equivalent. It also emits 129g/km of CO2, 15g/km up on the rear-wheel-drive car.

Where the all-wheel-drive justifies its case is in better traction and improved stability. Using the same Intelligent Driving Dynamics (IDD) system as the F-Type AWD, drive is sent to only the rear wheels in normal circumstances in order to save fuel. If the system senses slip, torque can be instantly diverted to the front to stabilise the car.

Lower mpg, higher CO2 for XF AWD

New four-wheel-drive system enhances traction and stability in iffy conditions

The AWD XF is far more capable in low-grip scenarios, so that decrease in fuel efficiency will likely be less of a concern to those who prioritise secure handling in difficult driving conditions.

Tune your XF to suit you

Also on offer is Jaguar's Configurable Dynamics system, which was previously available on only the V6 models. The system enables the driver to tune settings for the suspension, steering, throttle and transmission via the infotainment system.

An Adaptive Surface Response system, which replaces the Rain, Ice and Snow mode in the Jaguar Drive Control unit, optimises the car's settings to suit different surfaces.

Order books for the all-wheeldrive XF are open now, with first deliveries expected in the spring. Prices start at £36,350, which is £1800 more than the equivalent rear-drive XF. This comfortably undercuts all-wheel-drive rivals such as the Audi A6 quattro.

Sam Sheehan Sam.Sheehan@haymarket.com

Hyundai Ioniq

First look Hyundai's new Toyota Prius rival will be available as a hybrid, a plug-in hybrid or as an electric car On sale Winter 2016 Price from £25,000 (est)

THE IONIQ IS the first dedicated hybrid model from Hyundai, and is the Korean firm's attempt to muscle in on the turf of the new Toyota Prius. It's also the first car to come with a choice of three powertrains housed within a single body type.

These powertrains will consist of a conventional hybrid, a plug-in hybrid, or an all-electric option. The car sits on a new platform developed with sister brand Kia.

Three powertrains

In conventional hybrid form, the Ioniq is powered by a 103bhp 1.6-litre petrol engine working in

Ioniq has a very aerodynamic shape

conjunction with a 42bhp electric motor, giving a combined power output of 145bhp. The plug-in hybrid version operates in much the same way, with the major difference being that you can charge up the car overnight and travel on electric power alone initially. As an electric vehicle, the Ioniq draws all of its power from its lithium-ion battery pack.

Drive is sent to the rear wheels through a six-speed dual-clutch automatic gearbox, which has been optimised to be up to 97% efficient, something Hyundai says is another class-leading statistic.

Cabin looks conventional but stylish

loniq is the first car that can house three powertrains in one body type

Hyundai says the shape of the Ioniq is designed to give it best-inclass aerodynamics, while parts of the car – including its bonnet, tailgate and suspension components are made of aluminium to reduce weight.

The cabin is made from a range of eco-friendly materials, and features a large central touchscreen to control infotainment functions.

More eco models on the way

The Ioniq is a very important car for Hyundai. As well as helping the brand to meet European CO₂

emissions targets, it will spearhead a surge in hybrid and electric vehicles from Hyundai. The company has already committed to launching 22 low-emission models by the end of the decade.

The first Ioniq isn't expected in the UK until later this year. Full pricing has yet to be announced, but with Toyota pitching its latest Prius at £23,295. We expect the Ioniq to start at the same price of around £25,000.

Darren Moss Darren.Moss@haymarket.com

Kia Sportage

First drive We try Kia's SUV in 1.7-litre diesel form. Can it worry the Nissan Qashqai? **Verdict** Practical and classy, but noisy and not very efficient ***

THE OUTGOING SPORTAGE was a game-changer for Kia. The Korean brand's line-up had featured worthy cars with lengthy warranties, but there was little to get excited about. Then, out of the blue in 2010 arrived a handsome SUV you could be proud to park on your driveway.

Predictably, it flew out of showrooms and helped Kia more than double its sales over the next six years. Which brings us on to its replacement – a car that not only has big shoes to fill, but faces fierce competition in the SUV arena.

The new Sportage starts at £17,995 for a 130bhp 1.6 petrol, but here we're testing the 114bhp 1.7 diesel - priced from £19,745. It's expected to be the best-selling engine and is a rival for our 2016 Small SUV of the Year, the Nissan Qashqai 1.5 dCi 110.

Punchy engine, but too noisy

As striking as the original Sportage was to look at, it was never that great to drive, which is something this new model needs to remedy.

The Sportage gets off to a pretty good start because, despite undercutting the Qashqai on price, it has a slightly more powerful engine. In fact, in leisurely driving the differences feel greater than they actually are thanks to the Kia's combination of impressive low-rev pulling power and relatively short gearing.

'A better car in almost every way. It's bigger, more practical, plusher and, although it's pricier, you get more kiť

However, while the engine doesn't disappoint for performance it does for refinement. There's an incessant chug at tickover, and even gentle acceleration cranks up the volume and sends vibrations through your feet. The din doesn't even fade away at motorway speed.

Small SUVs don't need to be sharp to drive, but it's certainly no

bad thing that the Sportage keeps body lean neatly controlled through corners. It stays more upright than a Qashqai and grips well, although it's a pity the steering is rather numb and vague. At least it's light enough to make parking easy.

The stiff suspension does make the ride a bit choppy at low speeds, though – a problem that's only

Even when Sportage is at a high-speed cruise, engine noise is too noticeable

amplified if you venture higher up the trim levels because doing so brings larger alloys. The Sportage doesn't crash over potholes and sharp ridges like a Honda HR-V, but neither does it smooth over imperfections around town as adroitly as a Qashqai.

Large and classy inside

The new Sportage is longer than its predecessor, which means more leg room all round and a bigger boot. Rear space is roughly on a par with the Qashqai, while the Kia's reclining rear seats are a handy feature that isn't even available on most rivals.

Officially, the Sportage has a bigger boot than the Qashqai, but it's narrower due to intrusion from the wheel arches.

Getting comfortable in the driver's seat is easy enough. As you'd expect, you sit high up so there's a great view of the road ahead, while the dashboard is neatly ordered with chunky, clearly marked buttons.

One of the biggest improvements over the outgoing model is the quality of the interior; the new Sportage is really smart inside. True, you'll find some hard plastics where rivals use softer materials such as on the face of the dashboard - but the gloss black centre console on the pricier trims looks and feels properly premium.

A 7.0in touchscreen sat-nav is standard on '2' trim and above; it's easy to use and reacts quickly to screen-prods. Go for '3' trim and you'll get an even better 8.0in screen and a few more features.

Choosing a trim is almost as easy as 1, 2, 3. The most basic gets 16in alloys, four electric windows, air conditioning and a DAB radio, but Kia expects most buyers to opt for the mid-spec '2', which adds automatic lights and wipers, lane-keep assist and dual-zone climate control. We reckon it's the best option for most buyers, too, because '3' and '4' models aren't quite so keenly priced.

Better, but no class-leader

Make no mistake: this is a better car than the one it replaces in almost every way. It's bigger, more practical, plusher inside and, although pricier, has more standard kit. Despite all of that, though, we find ourselves feeling slightly underwhelmed. The biggest disappointment is the 1.7 diesel engine, which just isn't refined enough and fails to get anywhere near its key rivals on CO2 emissions. Kia's decision to offer important safety aids, including automatic

Interior trim is greatly improved; only dash has some hard plastics

Standard kit is plentiful and buttons are clear, large and well organised

Steering is light for parking, but is far too vague everywhere else

Plenty of space for the driver, and the view out is good

Rear seats recline; this feature is not offered by all rivals

Boot is a decent size, but wheel arches restrict its width

Sportage is definitely one of the sharper-looking SUVs

emergency braking, on only the range-topping trims is also surprising in this day and age.

We suspect a new engine and a few other small tweaks are all it would take to push the Sportage close to the class-leaders. As it is, private buyers with a bit more cash to splash are better served by the more refined 2.0-litre diesel and 1.6 petrol versions. Nevertheless, this 1.7 is going to be the biggest seller and falls a way short of its best rivals in this hotly contested class.

Toyota RAV4 Hybrid

First drive For the first time, Toyota is offering its RAV4 in petrol-electric hybrid form. We drive it on UK roads **Verdict** Not great to drive nor cheap enough to run ******

Quality has been improved, but still isn't good enough

RAV4 is annoyingly noisy when accelerating out of bends

THE RAV4 IS now in its fourth generation, yet this is the first time it's been available with a hybrid powertrain. It's been introduced alongside a facelift that updates the styling, refreshes the interior and gives the trim levels a shake-up.

A new diesel engine and a revised petrol engine have been launched, too, and the new Hybrid is available with front- or four-wheel drive.

Silent at low speeds

There's a full-electric mode you can engage when doing less than 30mph, which is theoretically perfect for near-silent, emissionsfree driving in town. In reality, though, the petrol engine fires into life unless you're extremely gentle with the accelerator pedal, and even if you are the batteries can manage less than a mile of pure electric propulsion. However, unless you're in a hurry, the petrol engine doesn't disturb the peace too much.

On faster roads, there's decent acceleration available, but the CVT automatic gearbox causes the revs

to soar and the petrol engine to blare away noisily.

An even bigger problem is the harsh ride; potholes and ridges send jolts through the car. The regenerative brakes are also grabby, making it hard to slow your progress smoothly.

The Hybrid is better on the motorway. It cruises quietly, making long-distance journeys

'The RAV4 is better on the motorway, where it cruises quietly and steadily' fairly relaxing. There's some road roar from the Excel model's upgraded 18in alloy wheels, though.

Better inside, but not great

Upgrades include a new instrument cluster featuring a 4.2in screen that displays information and allows operation of the car's settings via buttons on the steering wheel. The 7.0in touchscreen remains in the centre of the dashboard and features sat-nav as standard in Business Edition models.

There have also been small improvements to cabin storage, and efforts have been made to increase what Toyota calls 'tactile quality' with new materials on the armrest and door trims. However, there are still lots of hard, moulded plastics, and even the padded surfaces are decidedly thin.

In the back, there's spacious seating for two; a slim third occupant can also fit fairly comfortably in the middle seat, and the 60/40 split-folding seatbacks can also be reclined.

The Hybrid model has to accommodate batteries under its boot floor, which eats into load space, but there's still a very healthy 501 litres with the seats up. There's no lip at the boot entrance, the load space is symmetrical and a powered tailgate comes as standard.

Should I buy one?

Those good motorway manners and short stints of electric-only driving in town are outweighed by the RAV4 Hybrid's noisy engine and compromised ride. The interior updates have also done little to raise the quality of the cabin.

The Hybrid isn't even particularly efficient, either - CO $_2$ emissions of 118g/km are roughly on a par with a diesel Mazda CX-5. Yes, the RAV4 qualifies for a lower band of company car tax because it runs on petrol, but it will also do far fewer miles to the gallon in real-world driving. All things considered, then, the RAV4 makes more sense in diesel form.

INTRODUCING THE SUZUKI

AS POWERFUL AS IT LOOKS

The all-new Vitara S with rugged sports styling features the new Boosterjet injection engine, giving it maximum power without compromising economy. Combine this with the ALLGRIP 4-wheel Drive system and you get an agile SUV that really is as powerful as it looks.

Request a test drive today on 0800 804 8828 or at suzuki.co.uk/cars/vitara-s

Vitara S official fuel consumption figures in mpg (L/100km): Urban from 44.1 (6.4) to 44.8 (6.3), extra urban from 56.5 (5.0), Search/SuzukiCarsUK combined from 51.3 (5.5) to 52.3 (5.4). Official CO2 emissions from 127g/km to 128g/km. The above fuel consumption figures are based on an EU test for comparative purposes only and may not reflect real driving results.

Porsche 911 Turbo S

First drive The Turbo S has always been devastatingly fast, and now it gets more power and various other tweaks **Verdict** Mind-altering pace from a supercar you can use every day ****

Driving position is superb, and the 911 is easy to see out of

Carbon-ceramic brakes mean fade-free stopping power

THE PORSCHE 911 Turbo and Turbo S models have always been the halo 911s in terms of ultimate speed but rarely the choice of purists. That's because models such as the GT3 are more dramatic and precise to drive.

However, the current Turbo and Turbo S were largely well received, so this facelift is aimed at building on that success.

Quick is an understatement

The Turbo S has 573bhp, 20bhp more than before, which translates to 0-62mph in 2.9sec and 205mph. Mind boggling.

The twin-turbocharged 3.8-litre flat-six engine gets a new 'dynamic boost function', designed to reduce the hesitation you get waiting for the turbos to spin up after a quick lift of the throttle. However, there's still a delay before the shove arrives.

The acceleration barely diminishes even as you reach the seven-speed PDK automatic gearbox's upper ratios. You can also shift gears manually using the steering wheel-mounted paddles,

and in either mode the changes are quick and smooth. It's just a shame the Turbo S never sounds as thrilling as the Audi R8 Plus V10.

A rotary dial on the steering wheel allows you to choose between four driving modes, while at the centre of the dial is a Sport Response button. Press this and, regardless of what mode you are in, you get 20 seconds of maximum

The sheer pace and traction out of slower bends is utterly jawdropping'

response from the engine and gearbox for overtaking.

Whichever mode you choose the steering is superbly weighted and the brakes mighty - the Turbo S has carbon-ceramic discs as standard.

There's vast grip through fast corners and the traction out of slower bends is jaw-dropping.

Push really hard and the front wheels will wash wide, but the

Turbo S is adjustable enough that backing off the throttle brings everything neatly back into line.

It remains as usable as ever, though. With the suspension in Normal mode it's as comfortable as either an Audi R8 or McLaren 570S. and while there's plenty of road noise, there's little wind noise.

Comfortable and classy inside

As with all 911s, the Turbo S has a near-perfect driving position and plenty of space up front. The view out is good too, thanks to the slim windscreen pillars.

One area where the 911 beats rivals, is that it has four seats. Granted, the rear seats aren't suitable for adults, but they also double as space to supplement the boot, which itself will swallow a couple of overnight bags.

There's a new infotainment system, too. It's designed to be easier to use and adds online connectivity for real-time traffic reports and satellite maps. It also supports Apple CarPlay.

Optional extras include keyless entry, blind spot-monitoring and the option of a button to raise the nose by 40mm when traversing speed bumps.

Everyday versatility

If you want maximum thrills, the McLaren 570S and Audi R8 Plus both offer more fun and a greater sense of occasion.

However, the 911 Turbo has made its name by being the great all-rounder. It's the supercar that you can enjoy day-in, day-out, and this Turbo S fulfils that role more completely than ever.

BMW 330e

As with any 3 Series, the interior is stylish and well built

Charge at work and your running costs will be very low

THE BMW 3 Series has long been one of the best compact executive cars on the market, but the battle for lower running costs is neverending, hence this new 330e plug-in hybrid model.

Unlike the ActiveHybrid 3 that preceded it, the 330e can be charged from the mains to provide up to 25 miles of zero-emissions motoring. Considering most of the population have a commute of less than that, many could potentially avoid filling up with petrol for weeks at a time.

The 330e produces less than 50g/km of CO_2 , which puts it in the 5% BIK rate for company car drivers. The official tests also suggest up to 148.7mpg is possible, something we'd take with a pinch of salt.

Smoothly blends power sources

Despite weighing 165kg more than a 330i, the plug-in variant is quite rapid. As well as the 87bhp electric motor that sits in front of the eight-speed automatic gearbox, there's also a 2.0-litre turbocharged engine that develops 181bhp.

Due to both power sources delivering their best at different times, the output is 249bhp, enough for a 0-62mph time of just 6.1sec and a top speed of 140mph. It feels potent from a standing start, but acceleration tails off as your speed increases.

More relevant is the ease with which you can keep the 330e

'If you do less than 25 miles a day, or can charge it up at work, the 330e makes sense' running on volts alone. You need to give the accelerator pedal a hard prod or head towards motorway speeds before the internal combustion engine wakes up.

When the petrol motor does kick in, it blends smoothly. There is a bit of a jolt if you stamp on the throttle but even this is no worse than kick down with an automatic gearbox. Despite the extra heft, the 330e still feels agile with a comfortable ride and tidy handling. Refinement is also very good, even though the quietness of the drivetrain did highlight some wind noise from around the door mirrors.

As classy as ever inside

From behind the wheel, there's very little difference between the 330e and any other 3 Series. On the instrument panel there's subtle eDrive badging and slightly different instrumentation while the centre console houses an eDrive button to switch between electric drive modes.

This familiarity will appeal to many, on top of which the 3 Series still has one of the most best built cabins in its class.

However, boot capacity is down by more than 100 litres compared with diesel models, so there's actually slightly less than in a Volkswagen Golf. This is because the battery pack takes up space beneath the boot floor.

Should I buy one?

Whether or not you choose a 330e over a diesel car depends on your driving habits. If you travel less than 25 miles a day, or have the ability to charge your car at work, it makes sense. It's cheap for company car tax, too.

If, however, you have nowhere to charge the 330e or travel significant distances regularly, we'd still recommend a 320d. It's safe to say we would expect a 320d to be more economical once the 330e's batteries have run flat.

The Power to Surprise

Smart Fortwo Cabrio

First drive Heavier and costlier than before, but offers even more options for personalisation **Verdict** There are cheaper alternatives that are better to drive **

Funky-looking interior is roomier than you might expect

Even with the roof completely down, buffeting is minimal

THESE DAYS. FEW cars can claim to be truly without direct rivals, but the Smart Fortwo Cabrio is one of them. Its two-seat, convertible city car bodystyle is unlike anything else on the road.

The convertible Fiat 500C and Peugeot 108 Top are similar, but both offer rear seats and neither can match the Fortwo Cabrio's tiny sub 2.7-metre length. Importantly, the Cabrio retains the tiny footprint of its Fortwo Coupé sister car, too.

The Cabrio also gets the same engines as the Coupé: a 70bhp 1.0-litre or an 89bhp 0.9-litre three-cylinder turbo petrol, and it's the latter that we drive here. At launch, only a six-speed automatic gearbox will be available on both engines, but a five-speed manual will be offered from March.

The Cabrio's party piece is its folding fabric roof with integrated glass rear screen, which can be slid back electrically in 12 seconds at any speed. It can be partially opened like an elongated sunroof, or bunched up behind the rear pillars. For the

full-on open-air experience, the roof bars can even be removed.

Here we're focusing on the higher-powered engine in the cheapest of the three available trims, called Passion.

Good in town, less so out of it

The new dual-clutch auto gearbox works well with the surprisingly willing little three-cylinder, never getting too excited and changing down too many gears, while swapping with minimal fuss.

This 89bhp 0.9-litre engine has enough low-down pull and outright power to carry a couple of adults and their luggage across undulating, hilly terrain with ease.

However, the steering is vague off centre and never really weights up enough. The car's body leans a lot in tight corners, too.

More importantly for a city car, the Cabrio is superb at scooting through urban streets. That light, quick steering is much better suited to low speeds, and the car's sub seven-metre turning circle allows

U-turns and parking manoeuvres that are scarcely believable.

However, it's never very comfortable because potholes and road humps often result in lots of body bounce and a choppy ride.

Under load, the turbocharger can be heard whooshing away, but it settles down at a cruise. However. wind and road noise are issues

above around 40mph, even with the roof up. With it down, blustering is minimal by convertible standards.

Small outside, big enough inside

It's small, but there's easily enough room for a couple of tall adults. Unfortunately, both steering wheel and driver's seat-height adjustment are optional and over-the-shoulder visibility is badly obstructed.

Boot space is claimed to be a reasonable 340 litres with the roof up and 260 litres with it down, but its practicality is hindered by its awkward shape.

The cabin is mostly solidly constructed, and our car sported an attractive array of glossy plastics set against a fabric-trimmed dash. However, it was difficult to ignore the cheap-feeling switchgear.

As standard, the Cabrio comes with Bluetooth, aux and USB connections, a multi-function steering wheel, climate control, 15in alloys, electric windows and LED daytime running lights.

Worth the extra over the Coupé?

Cabrio versions of the Fortwo cost £2140 more than their Coupé equivalents, which seems a lot. Still, monthly finance deals will make that premium more palatable.

Passion trim is the pick of the range. Its smaller wheels and softer suspension deliver an acceptable ride and there's enough standard kit. While this engine and gearbox combination work well, the cheaper lower-powered engine and manual gearbox may be a better choice; and it may gain another star.

Ford Focus RS

First drive Four-wheel-drive hot Focus delivers outstanding pace and handling at a bargain price **Verdict** It's as exciting as £30k performance cars get, and you can use it every day

345bhp engine pulls hard from low revs up to the redline

There's plenty of standard kit, and quality is good enough

FAST FORDS WITH RS badges come along rarely and tend to make a bit of a splash when they do. So, even though there are now premium rivals such as the Audi RS3 and Mercedes-AMG A45, petrolheads will still flock to the new Focus RS.

It's no wonder, because it out-punches any competition available at its sub-£30k price point by a significant margin.

It also marks a return to something that no fast Ford has had since the 1990s: four-wheel drive.

Brilliant on every road

The ride is certainly firm: more so than the VW Golf R, if a touch more comfortable than a Honda Civic Type R. It's seldom harsh, even in the more focused of the two damper settings, and it maintains its handling composure even over mid-corner ruts and bumps. The only aspect that could get tiresome over longer journeys in the RS is the way it bobs about over undulating or rippled roads, although this is less noticeable at high speeds.

The car's handling is direct, stable and forgiving. Body roll is negligible, and the car changes direction with a keenness that escapes all but the most hardcore of fast hatchbacks - and with dependable steering feedback.

It caters for those who like monstrous grip and neutral, grippy cornering, while the track-focused settings bring a more adjustable,

'It has a truly adjustable sports car character that really sets it apart'

sports-car character that really sets the new RS apart.

The 2.3-litre turbocharged engine punches hard right from low revs all the way beyond 6000rpm. It's verging on the sort of progressive build of power that you'd expect from a non-turbocharged engine.

Even better, the stubby-levered, six-speed manual gearbox suits the fun-first ethos of the car.

The RS would be easy to live with; the clutch pedal is light, the ride settles most of the time, and even the engine quietens to a distant resonance on the motorway. Then, just switch it to Sport and enjoy the angry-sounding engine popping and crackling to egg you on.

Driver-focused and comfortable

Blue-stitched leather, sports seats and RS-branded instruments lift the cabin ambience, albeit not to the level of an Audi S3's. Still, that suits the blue-collar RS.

The RS is five-door-only, offering broadly competitive but not brilliant passenger and cargo space. The driver's seat is comfy; it secures your backside very snugly if you go for the optional Recaro buckets, although the driving position will be too high to suit everyone.

There's even an old-fashioned manual handbrake lever, and next to it is a button console for switching between four driving modes, each of which differently configures the car's suspension, steering, drivetrain and stability control systems.

Should I buy one?

There may be holes to pick in the RS's ownership case for those who want a premium-brand lustre with their fast five-door.

However, assuming that real-world pace and driver appeal are squarely at the top of your list of priorities, the Focus RS demands a test drive at the very least. It's about as exciting as £30,000 performance cars get, and it should seem civil and refined enough to use every day to those who are excited by it.

Star cars

Lexus RC 200t

First drive Less powerful, but lighter and more frugal four-cylinder version of the Lexus RC **Verdict** Looks great, but trails key rivals in virtually every other area

RC is heavy, but still involves the driver on a twisty road

LEXUS IS MAKING a conscious effort to add a sporting edge to its cars, so has introduced F Sport trim across the range. On the mid-sized RC 200t coupé you see here, that means more aggressive styling inside and out, 19-inch alloy wheels and tweaks to make it more rewarding to drive.

Too heavy, too slow

The RC 200t has a 241bhp 2.0-litre turbocharged four-cylinder petrol engine that drives the rear wheels through an eight-speed automatic gearbox.

Unfortunately, the RC 200t weighs a hefty 1675kg - that's more than 10% heavier than its BMW 420i M Sport rival – and this is reflected in the car's performance. Despite a 60bhp advantage over the BMW, the Lexus is 0.2sec slower to 62mph at 7.5sec. It still feels swift up to a point, but acceleration noticeably trails off at motorway speeds. The engine is very quiet at idle and when cruising; under acceleration it's smooth if a little noisy.

The RC 200t offers a range of drive modes that adjust the steering weight, engine and gearbox response and the firmness of the adaptive suspension. As well as the Eco, Normal and Sport modes offered on other models, the F Sport has a Sport S+ drive mode. Even in Sport S+, manual shifts don't come especially quickly using the steering wheel-mounted paddles,

'On country roads the RC remains stable. and the steering allows some decent driver involvement'

and kickdown can be hesitant in auto mode. The gearbox is fine for driving around town, though.

The suspension is firm, and even in Normal mode there is an occasional thump on urban roads and jittering on the motorway. However, on country roads the car remains impressively stable and the accurate, well-weighted steering allows a decent amount of driver

involvement. The F Sport also gets a limited-slip differential for improved cornering.

Top quality cabin

The cabin is plush with top-drawer build quality. Touch-operated features, such as the temperature controls, add to the premium feel, and only some surfaces, such as the carbonfibre-effect panels, let the side down a bit.

Standard kit includes front and rear parking sensors, reversing camera, a DAB radio, lane-departure warning and dual-zone climate control. Additional sporting touches include aluminium pedals and leather trim on the steering wheel and gearlever. Sat-nav is an extra, but some smartphone navigation systems can be mirrored on the 7.0in central display.

The front seats fold and slide to allow access to the rear, which is really only adequate for two children. The rear seats split 60/40 and fold forward to supplement the 374 litres of boot space – a little below average for this class. The boot has a high lip, but it is both deep and uniformly shaped.

There are better alternatives

Unless you're swayed by the RC 200t F Sport's looks and rarity, there are better alternatives, such as the Mercedes C200 AMG Line Coupé. It's quicker, much more economical, with fuel consumption of 49.6mpg, and it attracts 7% less benefit-inkind tax than the Lexus's 28%.

If performance is your priority, also consider the much quicker Mercedes C300 AMG Line Coupé or BMW 428i M Sport.

Reader test team Volkswagen Tiguan

New Golf-based SUV is bigger, more efficient and has an upmarket feel. It aims to steal sales from the Nissan Qashqai, but first it'll have to impress our reader panel

THE TIGUAN IS an important model for Volkswagen. Based on the Golf, it's the company's smallest SUV and will be fighting it out with many accomplished rivals, ranging from the class-leading Nissan Qashqai to the Audi Q3, BMW X1 and Mercedes-Benz GLA.

The new Tiguan is longer, wider and lower than the car it replaces, and it has a longer wheelbase, which means practicality gets a boost and the driving experience should be improved.

It goes on sale this spring; will our team of readers be heading to their local dealers to place an order?

If you'd like to be part of a future reader test team, or have a question about a specific upcoming car, email us at readertestteam @whatcar.com with your details.

MATTHEW PORTER

Age 53

Job Chartered accountant **Drives** Volkswagen Tiguan 4Motion

'It's a good refresh: Volkswagen has kept the good bits while improving the bits that needed some work. I own the previous generation car and can see clearly that this version goes above and beyond it.

'The styling is more modern inside and out, and the navigation system is much improved. Certain practical elements seem more fiddly, though. The rear seat folding mechanism is more complicated. and when the seatbacks are folded they're not completely flat. There aren't quite as many handy little cubbyholes as in my Tiguan either.

'I'd be very happy driving this vehicle in all circumstances. It's a **Matthew likes** the redesigned bodywork of the new Tiguan

general-purpose car that feels like it would excel in all weather. The fourwheel-drive would ensure I can do my 15-mile commute all year round. Comfort should be good too, because the seats feel just as good as ever.

'The dash feels more upmarket and the layout more intuitive. I'd say

it's on a par with the BMW X1, so to me it's even better than an Audi Q3,

and well ahead of a Nissan Qashqai. 'The Tiguan might cost more than the Qashqai, but you can definitely see where the money's going. I can't wait to order one.'

'The adjustable boot floor is a clever touch'

Watch the readers at whatcar.com/rtt-tiguan

ROB KEELAN

Age 41 Job Housing manager **Drives** Mini Clubman

'I like cars that stand out from the crowd. However, with one child already and another on the way. I need a family-friendly car, but it'll need to have a desirable image.

'The new Tiguan's design is a definite improvement over the last one: it's sleeker and sits squatter on its wheels. I particularly like this R-Line version; the alloys and the aggressive, angular front end really set it apart from all of its rivals. It looks great from the front and the back, and the interior is just as good as the outside.

'I can't see anything in the cabin that I don't like; everything looks

Rob likes the R-Line trim, which adds alloy wheels and extended wheel arches

like it's meant to be there. I wouldn't go for the rear seat tray tables though, as they don't look well thought through; I don't think they'd work well with child car seats.

'Rivals can't match the image it gives off either; in comparison the

Ford Kuga feels gimmicky, and the Mercedes and BMW a bit showy. The Tiguan, like other Volkswagen models, has a more classy, timeless feel. It's definitely worth investing in, provided it's sensibly priced.'

MATT CAMERON

Age 42

Job Risk and compliance director **Drives** Land Rover Discovery 3

'I'm more interested in the Tiquan than I thought I would be. I liked the old model, but it didn't have a premium feel so I would never have considered owning one. The new one looks much better; it's more striking and feels more upmarket.

'Inside, the dashboard is functional and free from clutter. Some of the materials around the instrument binnacle are not as soft as they could be, but everything you touch regularly feels good and looks the part, though.

'There's loads of room in the cabin and the adjustable rear seat is a great practical feature. I can't imagine there would be any

Adjustable boot floor and other practical features impress Matt

complaints about cramped rear seats from my teenage children.

'It might not be as big as my Discovery, but thanks to clever touches like the adjustable rear seat and boot floor, I think it's a worthy rival. I wouldn't have any worries about the Tiguan's off-road ability

either, as it seems capable of handling anything I'd throw at it.

'The outgoing car was a rival to the Nissan Qashqai; the new Tiguan feels like it should be compared with the Audi O3 and BMW X1. I wouldn't rule it out as my next car.'

Boot has lots of room and a flat load bay: infotainment system is quick to respond

TOM SARGENT

Age 37 Job Business owner **Drives** Nissan Qashqai

'I've only had my Qashqai for a couple of months, so it's great to see how it compares with the new Tiquan. Size-wise, the two are very similar, but the Volkswagen feels much better built than the Nissan. Its sleeker, more aggressive styling also makes it feel more upmarket.

'The fit and finish of the interior are much better and the boot is a decent size. The flat load space would prove really useful and the ability to slide heavy items in over the boot lip is a great feature. The false floor robs some space, but not enough to worry me.

'I have a five-month old daughter, so the sliding rear seats would be

As a new father, **Tom appreciates** the adaptability offered by the sliding rear seats

useful. The rear space could grow with her. We could position the seats farther forward while she's in a rear-facing car seat and get more boot space, and move them back when she needs more room.

'Another smart feature is the infotainment system. It has a

responsive touchscreen and a fantastic rear-view camera.

'My only complaint is that the dashboard is not the most exciting piece of design. It's a shame the new Tiguan wasn't on sale when I was looking for a small SUV."

Helpdesk

Got a car-related problem you can't resolve? Get in touch with Matthew Burrow at **Helpdesk@whatcar.com** with your name, contact information, details of the problem plus photos, and we'll try to help

From April next year, speccing even inexpensive optional steering wheel-mounted audio controls could end up costing you an additional £310 a year in tax

ons can cost y

VED rates may catch buyers out

I understand that the rates of vehicle excise duty are changing in 2017 and cars that cost £40,000 and up will be liable to higher annual charges. My question is: does that £40,000 refer to the list price or is it to the actual price paid by the buyer? Derek Rogers

What Car? says

Cars that cost more than £40,000 and are registered on or after April 1, 2017 will be subject to higher rates of VED in years two to six. The increased cost will be £310 a year, so the standard rate of VED for cars costing more than £40,000 will be £450 per year.

The law defines the price as the car's list price, so any discount that you are able to negotiate won't affect the car's VED band. The list price is the price of the car before the 'on-the-road' charges are added, such as a delivery charge, new vehicle registration fee, numberplates and fuel.

'Should an option take your car's price over £40k. you'll have to pay the higher rate of road tax'

Beware, too, that if you buy a car that has a list price of less than £40k, but add some options that take the price over the threshold. you'll be liable for the higher rate of tax. In short, an option for a few hundred pounds could end up costing you more than £1500 over five years in extra VED costs.

For example, the Audi A6 Avant 2.0 TDI Ultra Black Edition S tronic has an RRP of £39,890 so it would cost £140 a year in VED in years two to six. However, choosing an optional three-point steering wheel for £200 pushes that figure to £40,090 meaning that the Audi will now cost £450 a year in those same years to tax. Whether car manufacturers will change their pricing or specification levels remains to be seen.

Buying a £40k car? It may be worth looking at a model further down the range

Get all the advice you need at whatcar.com/car-advice

Dealership crashed a reader's Dacia, so the car's residual value will be affected

Dealer damages reader's Dacia

I took my Dacia Sandero into my local dealership for its 36,000-mile service. Unfortunately, one of the dealership's employees managed to crash my car into a lamppost on the way to the service bay, causing significant damage.

The dealer's management team has admitted responsibility for the incident. They have assured me that they will investigate the extent of the damage and advise on what repairs are required.

An engineer has been to look at the car and has concluded that the front suspension on the passenger side will need to be repaired and the front passenger door will need to be replaced.

However, my main concern is that there may be some undiagnosed mechanical issues that could present themselves in the future. What would you suggest I do? Andrew Clark

What Car? says

You've done the right thing speaking to the dealership's management team. You also need to contact your insurance company and it's worth speaking to Dacia customer services team so they can open a file on this incident.

Speak to the dealership and Dacia to explain your concerns. Suggest to them that you would like them to pay for an independent inspection of the car. That way you can have some peace of mind that the car is safe and that there aren't any underlying issues.

You will now have to declare that the car has been in an accident, even though it is in no way your fault. We'd suggest asking for a goodwill gesture to cover any loss in residual value.

You drive it, you own it?

In September last year, I went to my local dealership to test drive a used car. After taking the car out for a spin, I decided it wasn't for me and didn't

'If you are down as the car's registered keeper, you are liable for fines or tickets'

proceed any further. A few weeks later I was shocked to receive a V5C document from the DVLA. It arrived with my name on stating I was the new registered keeper of the car I had taken on a test drive. It seems that the garage filled out and sent off the V5C without my knowledge, consent or signature. Surely the dealership can't do that?

I now find myself in a very difficult position because the DVLA has been in touch threatening to prosecute and fine me for using the car without insurance. I don't know what to do.

What would you suggest? Is it normal for dealers to pre-empt a sale and send off the paperwork? Alan Gadney

What Car? says

We've never heard of a dealership sending off registration paperwork to the DVLA for a car that a person hasn't bought. You're right to be concerned because if you are down as the registered keeper you are liable for any fines or parking tickets involving this vehicle.

First, speak to the dealership. Explain what has happened and that you will be contacting the DVLA to get your name removed from the car's logbook.

The next thing to do is to contact the DVLA. Call them on 0300 790 6802 or contact them through the DVLA website, where the easiest thing to do is to type in the following link - http://bit.lv/ DVLAV5C - and notify them of the problem you face.

If you've been added to a car's V5C in error, quickly get in touch with DVLA

Safety

The £40
safety feature
you have
never
hoard of WHATCAR?
Investigates

heard of that could

save your life

Safety technology that steps in automatically to prevent a collision is the most important piece of kit you should have on your new car.

David Motton explains how it works

WHAT IF WE TOLD you there's a safety feature that could save your life, and it costs car manufacturers as little as £40. Wouldn't you want that technology on your next car?

Autonomous emergency braking (AEB) is its name, and it is becoming increasingly common on new cars. Some 95% of the new models tested by the safety experts at Euro NCAP in 2015 had an AEB system, either as standard or as an optional extra.

Leading safety experts rate AEB as one of the most important road safety advances of recent years. Euro NCAP tests whether a car has AEB or not, and how sophisticated

the system is, as a key part of its assessment of every new car.

The organisation's secretary general, Dr Michiel van Ratingen, says: "Vehicles designed to perform well in these tests are better equipped to prevent thousands of needless deaths and life-changing injuries on European roads."

Thatcham Research, automotive safety (and also security) experts, believe AEB has the potential to make a bigger impact on road safety than electronic stability control systems (ESC).

"ESC helps prevent single-vehicle crashes where the driver loses

control," says Matthew Avery, director of research at Thatcham. "Front-to-rear impacts are much more common; in fact they make up around a quarter of all crashes."

An AEB system can prevent this type of crash, or at least reduce the severity of such an incident.

How does AEB work?

The most basic AEB systems work at low speeds to prevent or reduce the severity of relatively minor bumps around town. More sophisticated systems work across a wider speed range, and so protect against more serious accidents where there is >>

'An AEB system can prevent a front-to-rear crash, or at least reduce the severity of it'

Safety

An AEB-equipped car will automatically alert its driver to potential hazards, such as cars pulling out of side roads

the potential for severe injury or even death. The very best systems - those that earn the most points in Euro NCAP tests - can detect cyclists and pedestrians as well as cars.

Whatever their level of sophistication, all AEB systems use sensors to detect obstacles ahead and assess whether a collision is likely. The unit will usually start by warning the driver that a collision is likely and that they need to brake, using dashboard warning lights or an audible alarm. If the driver fails to take action, the 'autonomous' part of the system will kick in and apply the brakes automatically.

These type of systems, which take technology used in adaptive cruise control and apply it to improve safety, have been around for more than seven years. Volvo was one of the pioneers, launching the XC60 SUV with a system called City Safety in 2008. As the name implies - and like most early AEB systems - City Safety was developed for urban driving at low speeds.

Operating from just over 2mph to just under 19mph, the first generation of City Safety was designed to prevent collisions entirely if the difference in the speed of the two vehicles involved was no more than 9mph. If there was a greater difference in closing speed the system would reduce the severity of an impact, although it wouldn't prevent it completely.

whiplash and relatively minor injuries, rather than to save lives in higher speed collisions. However, in spite of the limited circumstances in which this system was designed to operate, when Thatcham compared the XC60 with other similar SUVs without AEB it found a 23% reduction in crashes. Technology has moved on a great

So, its aim was to prevent

deal since 2008. The original City Safety system used a LIDAR (light detection and ranging) sensor. Now AEB systems use radar and cameras or a combination of both to offer braking from higher speeds and much greater sophistication.

"Software has improved and car makers now have more confidence in their systems," explains Avery.

'Today's best systems brake from high speeds using a combination of radar detectors and cameras'

Today's AEB systems aren't only smarter, they also brake harder. Instead of the 0.5-0.6G of braking force delivered by an early AEB device, modern systems can deliver around 1G.

Why should I spec AEB on my next car?

Simply because it works. One study by the US insurance industry compared the effectiveness of AEB with other driver assistance and collision avoidance technologies. For cars fitted with AEB systems, it found that insurance claims to repair damage done by the studied car to another vehicle were reduced by 10-14%. In contrast, the fitment of lane departure warning systems had little effect on insurance claims.

Research by the University of Adelaide in Australia examined 104 crashes, and used simulations to estimate how AEB could have reduced collision speeds and the risk of injury. It concluded that AEB could reduce fatal crashes by 20-25%, and that crashes where injury occurred could have been reduced by 25-35%.

Thatcham has also been closely monitoring the effectiveness of AEB. Comparing the current Volkswagen Golf Mk7, which has AEB fitted as standard to all but the

'University of Adelaide research found that AEB could reduce fatal crashes by up to 25%'

AEB will prevent a rear-end shunt if the car in front slams on its brakes

Latest safety technology explained

Lane departure warning

These systems warn the driver if their car is drifting out of lane without indicating. Some use an audible warning, others use a vibrating steering wheel. One problem with these systems is that some drivers find them irritating and turn them

off. Lane keep assist systems go further and gently steer the car back into the correct lane.

Blind spot monitoring

Using cameras or radar, blind spot monitoring checks for vehicles to one side and slightly behind, where they cannot be seen by the driver in the interior or exterior mirrors. Typically an amber light in the mirror illuminates if another vehicle is in the

blind spot, and starts to flash if the driver indicates a change of lane. which could lead to a collision.

Post-collision braking

While it won't prevent an accident, post-collision braking is designed to stop a dangerous situation becoming worse. If an impact is severe enough for the airbags to be deployed, postcollision braking applies the brakes to slow the car down, reducing the force of any second impact.

Inflatable seatbelts

This technology isn't widely available yet, but inflatable rear seatbelts are a £175 option on the Ford Mondeo.

The aim is to spread the force of a crash across a wider area, reducing the risk of injury.

Rear-end collision protection

AEB may be great at helping you avoid an accident, but what if the car behind you doesn't have it fitted and the driver isn't paying attention? That's where the Volvo XC90's innovative new rear-end collision system comes in. It uses reward-facing sensors to detect when a collision is likely, and tightens seatbelts to minimise the risk of whiplash injuries. It's one of the features that helped the XC90 win the What Car? 2016 Safety Award. >>

Safety

'Combining cameras and radar allows objects to be precisely identified and located'

entry-level S trim, with the previous Mk6 model, Thatcham found there was a 45% reduction in crashes where injuries occurred.

What about pedestrians and cyclists?

A significant benefit of the latest AEB systems is their ability to protect vulnerable road users. That's been made possible by a change in the type of sensors used. Today's most advanced AEB suites typically employ radar and a camera, or in the case of Jaguar Land Rover's latest offering, a 'stereo' system with two cameras.

"A radar is good at identifying where something is, its rough size $% \left\{ 1,...,N\right\}$ and its metallic content. It's not good at identifying what an object is," says Avery. "Cameras are really good at identifying whether an object is a car, a person or a cyclist, although they're not very good at working out where they are."

Combining the two technologies (or using more than one camera) allows objects to be precisely located and identified.

"You can then introduce algorithms that predict where the object is going and whether it is likely to move into the path of the car," Avery explains.

In other words, the best AEB systems can now tell the difference between a person, a bike and a car. In addition, they understand that people, cyclists and motor vehicles can be expected to behave differently from one another.

Since the beginning of this year, Euro NCAP has included an assessment of a car's ability to recognise, brake and avoid pedestrians in its overall safety rating. From 2018, a similar test will be introduced around cyclists. These changes mean cars without a camera-based AEB system will find it increasingly difficult to achieve Euro NCAP's coveted five-star overall safety rating.

Cars will make the connection

Today's safety technologies, like autonomous braking and blind spot monitoring, use sensors to keep tabs on other road users. What if rather than watching and waiting, cars communicated with each other?

Will Brocklebank is the founder and CEO of a cloud data business and an expert in the so-called internet of things', the ever-growing network of physical objects that have some form of network connectivity.

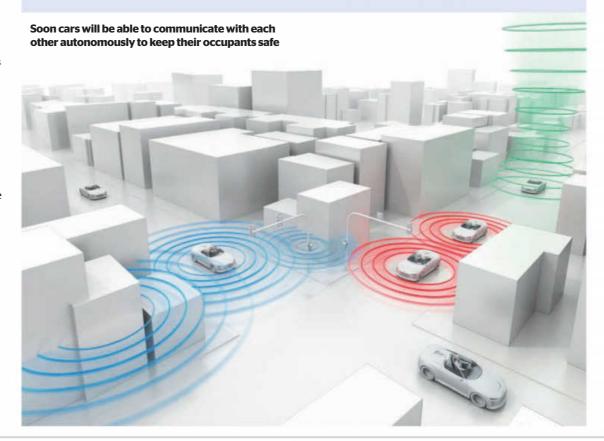

He sees safety benefits in a future where cars can communicate with each other. For example, one vehicle could send a

message to those around it if its driver brakes heavily. That way cars could warn each other about hazards that are out of sight to the human eye or beyond the reach of sensors like radar.

"Being able to know what's around the corner or just over the horizon has to be a good thing," he says.

This kind of connected car could form a stepping stone to the eventual widespread introduction of fully automated cars.

"Automated cars are already being tested on public roads. Now the cat is out of the bag we can't put it back in." he adds.

AEB is included as standard on selected Skoda Fabia, Nissan Qashqai and Mazda CX-5 models, but it's a cost option across the Ford Fiesta range

Do the most searched for cars on whatcar.com have AEB?

These are most popular cars on the WC? website. Find out if they have AEB and how much it costs

Make and model	AEB available (name)	Туре	Cost
Nissan Qashqai	(Forward Emergency Braking)	High and low speed	Standard on N-Connecta and Tekna, optional on Visia and Acenta models (£495 as part of the Smart Vision Pack)
Mazda CX-5	(Smart City Brake Support)	Low speed	Standard (plus Rear Smart City Brake Support £800 as part of the Safety Pack on Sport Nav)
Ford Fiesta	(Active City Stop)	Low speed	Optional on Zetec, Black/White Editions, Zetec S, Zetec S Black/Red Editions, Titanium and Titanium X (£200)
BMW X3	(Forward Collision Warning)	High and low speed with pedestrian protection	Optional as part of Driving Assistant Plus pack (£960)
Volvo XC60	(City Safety/Collision Warning with Full Auto Brake and Pedestrian and Cyclist Detection)	High and low speed with pedestrian protection	Standard (City Safety). Collision Warning is part of the optional Driver Support Pack (£1900)
Audi A3	(Pre-sense front)	High and low speed	Optional combined with Adaptive cruise control (£350-£575 depending on trim level)
Volkswagen Golf	(Front Assist/City emergency braking	High and low speed	Standard (not available on S trim)
Skoda Fabia	(Front assist)	High and low speed	Standard on SE, SE L and Monte Carlo trims
Vauxhall Astra	(Forward collision alert with low speed collision mitigation braking)	High and low speed	Standard on SRi, and optional as part of Driving Assistance Pack Or on Design, Tech Line, Energy and Elite models (£565-£795 depending on trim level)
Hyundai i10	X	n/a	n/a

Check if your next car has AEB at www.euroncap.com

More sophisticated high and low-speed AEB is standard on most Golf models and some Vauxhall Astras; it's an optional extra on all BMW X3s

Why don't all cars have an AEB system?

Good question. While it might be difficult for small-volume car manufacturers to engineer such technology into their vehicles, the cost of off-the-shelf AEB units from automotive technology suppliers is not expensive. Avery estimates that manufacturers can buy a LIDAR-based system for around £37. A camera-based system might cost approximately £58, a stereo camera system £73 and a radar-based system around £146.

Part of the problem lies with the driving public. Big alloy wheels,

touchscreen infotainment systems and panoramic sunroofs all have more showroom appeal than safety technology that you can't see or touch, and that you hope you'll never have to use. On new cars with an AEB system as a cost option, just 1.6% of buyers will tick the box to choose it.

That's why Thatcham and Euro NCAP want manufacturers to fit AEB as standard. To encourage them to do so, they are offering the incentive of a higher Euro NCAP score for these models.

This will also help to lower insurance premiums for their

owners, as Avery explains: "Cars with AEB systems as standard have around 10% lower premiums."

However, the discount isn't given to cars with optional AEB because it's too difficult for insurers to verify whether the system is fitted.

The smartest car manufacturers are packaging AEB with other technology that uses the same sensors, such as traffic sign recognition and high-beam control. In this way they are mixing safety with comfort and convenience features, which drivers can benefit from in everyday driving, not just in an emergency.

WHATCAR?

says...

The evidence is irrefutable - AEB systems save lives. Just as all new cars now come with stability control, so autonomous emergency braking should be standard-fit for all mainstream cars.

TERACLEAN. Healthy living for your car.

Thousands of UK motorists have now treated their; car, van, motorbike, truck to a TerraClean™ service.

Better Performance, Regained BHP, Restored MPG, Reduced Emissions, Cleaner CAT, Cleaner EGR, Cleaner DPF. **

Has your car experienced TerraClean™ yet?

TerraClean™ is the most talked about decarbonising service in the UK which is why so many owners and fleet operators have had their engines linked up to our hi-tech equipment and experienced the highly refined fuels (Note - NOT solvents) cleaning their entire fuel system - from start to tail pipe and everything in between. We have a network with hundreds of UK service locations - and mobile agents too: so you can have the service at home or while you work.

So why wait? Visit www.terraclean.co.uk to find your local TerraClean™ agent and call today.

Trade enquiries also welcome - are your suppliers advertising your services?

** We recommend A TerraClean™ service be used as part of a vehicle's routine service program. It will remove carbon and the gums and varnishes which are residues of the additives in fuel. Cleaning the system & removal of these will improve the performance of the vehicle as indicated and prolong the life of various components which are damaged over time by the build-up of contaminants. For more information visit www.terraclean.co.uk, identify and speak to your local service agent. TerraClean™ recommend the use of a good quality fuel at all times

What people are saying:

"Advised by my local garage, who look after my Nissan X-Trail 2.2 diesel 06 plate, to try TerraClean to clean the fuel system out due to a fault. It was all sorted in a couple of hours - the engine was cured of the problem. It's now running smoothly and accelerates like never before." Paul Ward, Nissan X-Trail 2.2 diesel

"The difference in our car was noticeable straight away; it was smoother, quieter and the MPG was instantly 50 - wow! It certainly lived up to everything you said it would!" Cathryn -Ipswich, VW Passat

What's coming when

LARGE SUV

Jaguar F-Pace

(Spring 2016) Jaguar's first SUV will arrive in the spring. It's built on the same platform as the XE and XF and uses technology from the F-Type to ensure that it handles and rides as a Jaguar should.

Rear- and four-wheel-drive models will be available, as will manual and automatic gearboxes. There will be a choice of 2.0-litre diesel, 3.0-litre diesel and 3.0-litre supercharged petrol engines. Prices start from less than £35,000.

ALSO COMING SOON

CITY CARS AND SMALL CARS DS 3 (spring 2016)

Facelifted hatch loses its Citroën badge and heads upmarket.

Ford Ka (autumn 2016)

Five doors. Driving fun promised.

Suzuki Baleno (summer 2016)

Five-door hatchback is bigger than the Swift supermini.

FAMILY CARS

BMW 2 Series Active Tourer PHEV (March 2016)

225xe Active Tourer uses the same plug-in hybrid technology as the i8.

Fiat Tipo (early 2016)

Fiat is bringing back the Tipo name for its Focus rival.

Hyundai Ioniq (late 2016)

Will be available as a hybrid, plug-in hybrid, or as a fully electric model.

EXECUTIVE CAR

Volvo S90

(Summer 2016) The new S90 is a conventional saloon that will sit at the top of Volvo's line-up, alongside the recently launched XC90 SUV. It shares many of the chassis parts and engines with its SUV stablemate so should be efficient. Volvo also says it'll have more cabin space than the S80.

Renault Mégane (summer 2016)

Expect improved fit, finish and quality as well as greater space.

EXECUTIVE CARS

Alfa Romeo Giulia (September)

Long-awaited rival for the BMW 3 Series and Jaguar XE.

SMALL SUVs

Audi Q1 (spring 2016)

Stylish baby SUV to rival Nissan Juke.

MG GS (autumn 2016)

Brand's first-ever SUV.

Mini Countryman (late 2016)

Second-generation Countryman will grow in every direction.

Mitsubishi ASX (late 2016)

New SUV will get plug-in hybrid tech.

Seat Leon SUV (autumn 2016)

Style and space will be a priority.

Toyota C-HR (summer 2016)

Aimed straight at the Nissan Juke.

Volkswagen Tiguan (summer 2016)

More practical and efficient than the outgoing model.

LARGE SUVs

Bentley Bentayga (early 2016)

Bentley's first SUV comes with a £160,000 price tag.

Ford Edge (spring 2016)

Flagship SUV comes to the UK.

Tesla Model X (2016)

All-electric power and seven seats.

MPVs

Renault Scénic (late 2016)

Expect great practicality and maybe even an SUV hint to the styling.

CONVERTIBLE

Mercedes-Benz SLC

(Spring 2016)

The SLC is the new name for the Mercedes-Benz SLK, which has just been facelifted. The SLC's hard-top folding roof has been updated and it can now be opened or closed at up to 25mph. Owners also no longer have to manually set the luggage cover in place before opening or closing the roof.

SPORTS CARS & HOT HATCHES

Ford Focus RS (March 2016)

Will have a turbocharged 2.3-litre engine producing 345bhp.

Honda NSX (spring 2016)

Hybrid sports car has 550bhp and can hit a top speed of 193mph.

CONVERTIBLES

Fiat 124 Spider (autumn 2016)

New sports car shares its underpinnings with Mazda's MX-5.

Mercedes-Benz S-Class Cabriolet (summer 2016)

Drop-top luxury car will offer a comfortable way to soak up the rays.

Range Rover Evoque Convertible (spring 2016)

Stylish soft-top small SUV will have no direct rival, and could clean up.

Triple test

Don't break with tradition

In estate form, the Audi A4, BMW 3 Series and Mercedes-Benz C-Class are all practical and stylish load-luggers. Which is best?

Audi A4 Avant vs BMW 3 Series Touring vs Mercedes-Benz C-Class Estate

THE CONTENDERS

Audi A4 Avant 2.0 TDI 190 S line S tronic List price £35,430

Target Price £32,627

The A4 is our favourite compact executive in saloon form. Is it such a great estate, though?

BMW 3 Series Touring 320d M Sport auto List price £35,620 **Target Price £31,518**

It's been around since 2012, but a refresh last year has added appeal to this accomplished campaigner

Mercedes-Benz C-Class Estate C220 d Sport auto

List price £34,870

Target Price £31,621

Trails its rivals on power but beats them both for standard kit. It's the cheapest before discounts, too.

TEMPTED BY A premium SUV? If only they were a bit less expensive, a little more economical to run, more fun to drive and a little cheaper to tax. Well, if you're prepared to sacrifice that raised seating position, you can have all of these things by choosing a traditional estate car instead.

Contrary to what you might expect, most estates can swallow as much luggage as their SUV equivalents, so there's little to lose and much to gain in buying one.

Which should you choose, though? We've gathered together three of the best mid-sized premium wagons on the market to battle it out for class honours: the all-new Audi A4 Avant, the recently updated BMW 3 Series Touring and the Mercedes C-Class Estate. All are in sporty looking trims to add some style, yet have tax-friendly diesel engines that skilfully balance performance and economy. >>

Triple test

What are they like to drive?

The BMW and the Audi both have 2.0-litre engines, but are slightly more powerful than the 2.1-litre Mercedes. However, the C-Class was marginally the quickest to reach 60mph, closely followed by the 3 Series, with the A4 lagging behind.

In the damp conditions of our test, the front-wheel-drive Audi struggled to accelerate smoothly off the line and scrambled for traction, while the others - both driven by their rear wheels - were able to get away smartly. You'd rarely need to accelerate so hard from standstill in everyday driving, though, and the Audi was on-pace with the others once rolling, helped by its quickshifting automatic gearbox.

In more leisurely urban driving all three cars change gear smoothly, and the A4 upshifts early to improve economy; even if you sink your right foot its engine never sounds harsh or stressed.

Meanwhile, the Mercedes' engine chugs away at idle and becomes slightly coarse with rising revs, and the 320d's sounds clattery when you're accelerating. With its noisy engine and noticeable tyre roar, the BMW is also the least peaceful companion on the motorway. In contrast, the Audi and Mercedes both hush up nicely as longdistance haulers.

The A4 feels the most stable when cruising, too, but its steering is the least responsive when turning in to tight B-road bends. On a dry surface the Audi grips well and can carry plenty of speed through corners. The Mercedes sways about a bit more through tight twists, but handles tidily enough. Its variable steering (standard on this version) is disappointing, though; it feels unnatural and offers little feedback when you're driving quickly.

It's the BMW that triumphs for handling, with decent steering feel, impressive body control for a car of its size and a far greater feeling of driver involvement.

Given its agility, you might expect the 3 Series to deliver a harsh ride, but despite its stiffened M Sport suspension it handles sharper bumps quite well. The softly sprung C-Class is the most comfortable of the three at low speeds, but it never quite settles down at high speed. Meanwhile, our test A4 Avant was fitted with adaptive comfort suspension (£600), an option we've praised on the A4 saloon. It still delivers the most comfortable motorway ride of the trio, but our car's optional 19in alloys didn't help the ride on pockmarked town roads. We'd recommend sticking with the standard 18in rims.

Audi has the most refined cabin, but 19in alloys upset low-speed ride

The Audi's boot is the longest, widest and most uniform in shape, and it has a handy motorised luggage cover, too

Good combination of ride and handling, but the engine is rather noisy

There's generous underfloor storage in the BMW and the rear windscreen opens separately from the boot, too

The C-Class is the quickest off the line, and most comfy at low speeds

C-Class also comes with an electric luggage cover, and boot-mounted switches drop the rear seats remotely

Audi A4 Avant vs BMW 3 Series Touring vs Mercedes-Benz C-Class Estate

BEST DRIVING POSITION

Drive Select buttons for changing modes are annoyingly far from driver

Combination of top build quality and quietly stylish design give an air of luxury

INFOTAINMENT

Audi A4 Avant

Only the entry-level A4 misses out on sat-nay, but all trims get a 7.0in colour screen that's operated via Audi's familiar MMI rotary controller. The optional £1450 Technology Pack upgrades the display to the 8.3in touchscreen pictured below for added ease of use, and also brings a more advanced sat-nav with traffic updates, 10GB of music storage and a touchpad controller.

BMW 3 Series Touring

Only the 3 Series offers sat-nav as standard across the entire model range. The rotary dial-controlled iDrive system in the BMW is a cut above the others, offering the most intuitive menu system of the three. Our test car's M Sport trim provides no more multimedia functions than the basic SE as standard, but you can get a more powerful Professional system for £900, and add more speakers for another £430.

The 3 Series' interior is solidly built, but it looks and feels a bit ordinary in this company

The Sport seats in the BMW wrap neatly around the driver in the snug-feeling cockpit

Mercedes-Benz C-Class Estate

All C-Class Estate models have a rotary controller and touchpad to operate their 7.0in infotainment screen. Some simple functions are unnecessarily laborious, though, and the touchpad seems more of a gimmick than a real aid to functionality. Sat-nav comes as standard on Sport trim, although our test car had the £2995 Premium Plus Package, which brings more features, including a built-in hard drive.

What are they like inside?

All three estates use premium materials on most surfaces, and you'll have to delve into the footwells to find any hard plastics. Equally, the switchgear in each feels solid, but the Mercedes and Audi add a layer of style and quality that the plainer BMW can't match.

One bugbear in the C-Class is the central fascia, which creaks when pressed – not the kind of flaw you'll find in the A4, which feels incredibly well built. The Mercedes also misses out on sporting touches, such as the upgraded steering wheel and styling accents of the Audi and BMW - you need to upgrade to AMG Line trim for those. However, the C-Class fights back with heated electric seats and adjustable lumbar support. The Audi also has adjustable lumbar support, but you have to pay extra for all of the above on the BMW.

Front head room is similar in the 3 Series and A4, while our test C-Class was tighter for taller drivers due to its optional panoramic sunroof. All three have sculpted front seats, but the BMW's hold you in place best through corners. Visibility from the driver's seat is good in all three, although the BMW has a smaller rear screen.

The 320d has the best rear head and leg room and reasonable space for the middle seat passenger. The Audi has the widest rear cabin, whereas the Mercedes has the least rear leg and head room, although there is room for two six-footers.

The sting is arguably in the tail in this group, and on paper there's little between them. Boot space ranges from 490-505 litres with the seats up and 1500-1510 litres when they're folded, and all three have 40:20:40 split-folding rear seats as standard. A powered tailgate is standard in all three estates, and the A4 and C-Class also have an automated electric luggage cover that rises automatically when you open the boot – the handy feature isn't even on the BMW's options list.

The Audi's boot is the longest (with seats either up or down) and widest; it has the most uniform shape and the smoothest step between the boot floor and folded seatbacks, although there is a small slope in the extended load bays of all three. All offer some underfloor storage, but the BMW has most, while the Mercedes has the widest boot opening, the smallest lip (just 2cm), and one-touch switches at the boot opening to drop the rear seats. The Audi and Mercedes have handles on the walls of the boot that effectively do the same job but aren't as convenient. >>

Stylish design is a highlight of the C-Class's interior, and build quality is generally good

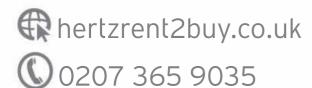

Comfortable front seats are electric and heated as standard, but not real leather

#HertzAlsoSellsCars

CHOOSE IT TRY IT BUY IT

We give you more test driving time with up to 5 days to try.

Audi A4 Avant vs BMW 3 Series Touring vs Mercedes-Benz C-Class Estate

Triple test

What will they cost?

Over a three-year period, there's £614 between the cheapest and most expensive of these cars in benefit-in-kind (BIK) tax costs for company car drivers, with the Mercedes costing the least at £8704 (an average of £242 per month) for a 40% tax payer. Total tax for the BMW is £9318 due to its higher CO₂ emissions. There's barely anything in it for leasing costs, though: they're all around £420 a month.

Despite offering the biggest discounts from new – just over £4100 - the BMW is still expected to dish out the most painful depreciation to private buyers, shedding nearly £17,000 over three years; you'll lose less than £16,000 on the others. The Mercedes is predicted to lose the least, but it costs the most to insure and has significantly higher servicing bills, leaving the Audi the cheapest in the long run for cash buyers.

Those buying on finance will spend the least each month on the Mercedes. Put down a £5000 deposit on a three-year PCP deal (with an annual mileage of 12,000) and you can have the C-Class for £376 a month. The Audi will cost you £391 and the BMW £426. All these deals require you to pay a sizeable 'balloon' payment at the end of the agreement if you want to own the car outright, but most buyers use this point to switch cars and start a new finance agreement.

The C-Class is better equipped than both of its rivals, with parking sensors at both ends rather than just the rear, a reversing camera and even a self-parking system. In fact, you'll need to spend around £2000 on the Audi or BMW to match the C-Class's kit list. The Mercedes does miss out on the sporty styling touches that many buyers will want, but you can upgrade to AMG Line spec for a reasonable £1495 to add a bodykit, bigger wheels, sports suspension and interior trim. So, however you look at it, the Mercedes packs in the most equipment for your money.

All our estates have a three-year warranty, although there's a 60,000-mile limit on the Audi in the third year, while the other two impose no mileage restrictions. >>

Audi A4 Avant vs BMW 3 Series Touring vs Mercedes-Benz C-Class Estate

OUR VERDICT

Audi A4 Avant 2.0 TDI 190 S line S tronic ***

For Cruising refinement; biggest boot; stunning interior; slow depreciation; safety Against Low-speed ride on 19in alloys; could do with more standard equipment

Verdict A fine estate, but there are bigger alternatives for similar cash

Mercedes-Benz C-Class Estate

C220 d Sport auto

For Generous equipment; performance; supple ride Against Steering; engine refinement in town

Verdict Luxurious, quick and decent value for money

BMW 3 Series Touring 320d M Sport auto

For Most accomplished handling: big discounts Against Long-term costs; noisy engine; standard kit

Verdict Still the keen driver's estate of choice

See how other family estate cars compare in our buyer's guide on p88

THERE ISN'T A great deal to separate these estates. However, four years is a long time in the car world and, despite some recent updates, the BMW's age puts it at a disadvantage, not only because the bar has been raised since its debut, but also because older models tend to depreciate more heavily.

The 3 Series Touring is quick, fun to drive, reasonably practical and, perhaps surprisingly, not uncomfortable on standard M Sport suspension. But its comparative lack of standard-fit

'The Audi combines the most refined engine with the largest and most usable boot'

luxury and safety kit, along with its noisy engine, are glaring shortfalls.

If arriving at your destination as fresh and stress-free as possible is your priority, the Mercedes is an attractive proposition. The supple ride, interior comforts and healthy roster of labour-saving gadgets that come as standard work in its favour. It also makes financial sense for company car drivers and private buyers. Improved engine refinement and better steering would have pushed it even closer to winning this contest.

The Audi, meanwhile, combines distance-devouring motorway composure with the most refined engine, peerless interior quality, the largest and most usable boot and reasonable ownership costs. Our only reservation is that the 3.0 TDI 218 model is even smoother and punchier, emits barely any more CO₂ and costs just £1700 more.

It's also worth keeping in mind that none of these estates is the last word in boot space. If that's your priority, you could buy a BMW 5 Series Touring for not a lot more.

Triple test

GLC tackles the establishment

Will the long-awaited Mercedes-Benz GLC SUV outshine the BMW X3 and Discovery Sport?

BMW X3 vs Land Rover Discovery Sport vs Mercedes-Benz GLC

BMW X3 xDrive20d M Sport auto List price £38,590 Target Price £37,651

We're big fans of the X3 in SE trim, but does the more focused M Sport model cut the mustard?

Land Rover Discovery Sport 2.0 TD4 180 HSE auto List price £39,400 Target Price £38,910 The benchmark in this class. The Discovery Sport has seating for seven and lots of luxuries.

Mercedes-Benz GLC 250 d AMG Line List price £39,595 **Target Price £38,912**

Mercedes' latest SUV certainly looks the part and seems well priced given the amount of standard kit.

A FULL 13 YEARS. That's how long it's taken Mercedes-Benz to launch a proper rival to BMW's big-selling X3. Still, if initial impressions are anything to go by, the wait may have been worth it. Not only does the new GLC look the part inside and out, it also comes packed with high-tech features and promises to be more fuel-efficient than its premium-badged contemporaries.

The two most obvious of those are the BMW X3 xDrive2od and our current class champion, the Land Rover Discovery Sport. The vast majority of buyers choose the 178bhp 2.0 TD4 seven-seat version we've lined up here.

Our first taste of the GLC on UK roads is in the range-topping 250 d AMG Line that, despite having a sizeable power advantage over its two rivals, costs barely any more to buy. Mercedes might have arrived late to the party, but has it turned up with a winner? >>

Triple test

What are they like to drive?

The GLC's extra power gives it a healthy performance advantage over its rivals. No matter whether you're using the automatic gearbox's kickdown function to pile on speed quickly or relying on the engine's low-rev muscle to accelerate more calmly, the GLC always feels stronger than its rivals.

That said, the BMW is far from sluggish and, in most situations, its eight-speed automatic gearbox acts a bit more intelligently than its rivals' nine-speed transmissions. It responds more quickly pulling on to roundabouts, and shifts more smoothly the rest of the time.

The Land Rover is the slowcoach here. Performance is adequate, but you have to work its engine pretty hard to get anywhere in a hurry. Despite its name, the Discovery Sport isn't at all sporty to drive, either. However, the priority for most SUV buyers is a comfortable ride and, on the whole, it delivers this. It's particularly impressive at high speeds and, although it fidgets around a little more than we'd like over pockmarked urban roads, it's never uncomfortable.

In AMG Line form the Mercedes rides on sports suspension and our test car also had optional 20in alloys (19s are standard). This might sound like a recipe for a boneshaking ride, but the result isn't too bad. Again, you're jostled around a little at low speeds, but the pay-off is considerably less body sway through bends than in the Land Rover. It's just a pity the GLC's steering isn't better; it weights up in a very unnatural way turning in to corners, whereas the Land Rover's steering is more accurate and confidence-inspiring.

For years, we've heaped praise on the X3's tidy handling and comfortable ride. However, in range-topping M Sport trim it's simply too firm. The ultra-stiff suspension does the handling few favours either; even relatively small bumps can throw the car off line.

If you want the looks of the M Sport with a more forgiving ride, you can opt for softer suspension for free, although we've yet to try the BMW in this form. We have tried it with £650 variable damper control, but the fact that its two rivals are comfortable enough without an expensive upgrade counts against this particular X3.

The BMW is also the least refined; it has the gruffest engine and suffers from the most wind noise on the motorway. The Mercedes is the quietest overall, although the larger-than-standard alloys on our test car generated some road noise.

On standard M Sport suspension the X3's ride is too hard for UK roads

BMW has the tallest boot, but you have to pay extra for 40:20:40 split-folding rear seats. Rivals offer this for free

Not the sharpest-driving SUV, but the most comfortable of the three

Land Rover has the longest boot and is the only one with second row seats that slide back and forth and can be reclined

Firm but not uncomfortable, even shod with optional 20in alloy wheels

GLC's boot is comparatively shallow, although there's some handy extra storage space beneath the floor

BMW X3 vs Land Rover Discovery Sport vs Mercedes-Benz GLC

X3's interior might be more conservative than GLC's, but it's just as well finished

the most comfortable seats

M Sport version of X3 comes with a chunky steering wheel that may not suit all drivers

BEST DRIVING POSITION

INFOTAINMENT

BMW X3

BMW's excellent iDrive infotainment system is standard, but our test car had the optional (£900) wide-screen Professional system. Either way, you get sat-nav and a DAB radio, and an intuitive rotary dial between the front seats that you twist to scroll through the on-screen menus and press down to make a selection. The Professional system also provides live traffic information.

Land Rover Discovery Sport

The only one of the trio with a touchscreen, rather than a separate rotary controller between the front seats. The interface is pretty easy to get the hang of, thanks to a userfriendly home screen and logical menus. However, it's a shame the system is often sluggish to respond when you press the screen, and that the display graphics aren't sharper. Two extra USB sockets in the rear of the car cost £100.

Interior quality is good rather Land Rover has the most user-friendly dashboard and

than great; the steering wheel buttons feel a little low-rent

Mercedes-Benz GLC

AMG Line versions come with satnay as standard, although a simpler Garmin-powered version than the one pictured below. The standard system is adequate, but the rotary controller and menu system aren't as intuitive as the equivalents in the BMW. The Comand option (pictured) uses the same controller, but provides loads of other extras, including a more powerful stereo. Shame it adds £2995 to the price.

What are they like inside?

You're unlikely to have much bother finding a comfortable driving position in any of these SUVs, although the BMW's lack of electric seat adjustment makes the process more complicated than in its rivals. The BMW is also the only one of the trio without adjustable lumbar support, although you can add it for a reasonable £265.

For sheer wow-factor the Mercedes' interior is in a class of its own, thanks to the giant gloss black centre console and eye-catching metal highlights. There are a couple of examples of questionable build quality, but the Mercedes still edges the BMW for outright quality. The Land Rover's interior feels the lowest-quality of the three, but its greater focus on functionality makes tasks such as adjusting the air-con easier than in either rival.

Practicality is a priority for many SUV buyers and here the Land Rover has a clear edge. It's the only one of the trio that can carry seven people and the only contender with a second row of seats that slide back and forth and recline. Better still, the Discovery has the most space for two rear passengers; the Mercedes has the least, but still plenty for a couple of six-footers.

The Land Rover's extra seats are a massive bonus. You have to clamber through a narrow gap to get to them, and they are only comfortable enough for smaller children on long journeys, but adults can certainly use them on short trips.

Fold the Land Rover's rearmost seats away and you're left with a large, square luggage area. Ignore the official boot capacity of 981 litres – Land Rover measures its cars in a different way from most other manufacturers – but it still has a longer and slightly wider boot than both German rivals. The Mercedes' load capacity is the same as the BMW's, but folding down its rear seats is easier than in either rival; you simply flick tiny switches on the walls of the boot and the backrests drop flat automatically. >>>

'The Discovery Sport has the clear edge on practicality: it's the only one that can carry seven people'

The most visually impressive interior, although the centre console creaks when prodded

GLC offers plenty of driver's seat adjustment, as well as adjustable lumbar support

DRIVESMART, SAVEMONEY

Tesco's Drive + Reward app could help you earn a discount on your car insurance

few years back, the only way you could save money on your car insurance with a phone was to spend hours ringing round different companies for quotes. Tedious.

Thankfully, Tesco Car Insurance has made it easy to save up to 20 per cent on your premium - all you need to do to get started is download a free app.

The Drive + Reward app uses your smartphone's GPS to automatically record your car journeys, giving you a rating for each trip based on how well you've driven. Once you've completed 250 miles, you'll be given a final personal driving score.

Here's the best bit: if you've driven safely and have a high enough score, you could earn a discount on Tesco Car Insurance.

Three quarters of customers who use the app and buy Tesco Car Insurance will receive a discount, with at least 10 per cent of over 25s earning a 20 per cent discount*.

HOW IT WORKS

STEP 1

Download the Tesco Drive + Reward app from the Apple App Store or Google Play

Use the app to record your driving on every trip you take. You'll be given feedback on your driving and a rating for each journey

STEP 3

After 250 miles you'll receive a final personal driving score. If your score is high enough, you could earn a discount on Tesco Car Insurance*

* Discount only available on new policies underwritten by Tesco Underwriting Limited.
Discount does not apply to add-ons or Box Insurance. Minimum premium applies.

FOR MORE INFORMATION, SEARCH TESCO DRIVE + REWARD **BROUGHT TO YOU BY TESCO BANK**

BMW X3 vs LR Discovery Sport vs Mercedes-Benz GLC

Triple test

What will they cost?

The Mercedes has the highest list price, although after discounts it costs just £2 more than the Land Rover. The BMW is the cheapest to buy outright with cash before and after discounts.

However, company car drivers will find the Mercedes makes the most financial sense. Its lowest CO, emissions mean it works out £837 cheaper than the Land Rover over three years for a 40% taxpayer, and £558 cheaper than the BMW. Contract hire rates for the three are less diverse, with the BMW only slightly cheaper over three years than the other two.

Buyers looking to finance their next car with a PCP deal will tempted by the Mercedes, too. On a three-year, 12,000-mile-a-year deal with a £5000 deposit, the Mercedes will cost £482 a month, the Land Rover £486, and the BMW £528.

There's more good news for the Mercedes in our fuel tests, which revealed the GLC to be the most efficient. It's also the cheapest to tax and is predicted to hold on to its value for longer. Even so, the Land Rover is still, albeit marginally, cheaper to own privately over three years, with the BMW the most expensive by around £750.

Land Rover has been most generous with standard equipment. All three cars get 19in alloy wheels, climate control, leather heated front seats (although the GLC's are man-made leather), automatic headlights and wipers, front and rear parking sensors, an electric tailgate, cruise control and keyless start. The Land Rover and Mercedes add electric front seats, upgraded headlights and a reversing camera to that list, while the Land Rover is unique in adding a panoramic roof and keyless entry.

All three gained five stars in their respective Euro NCAP crash tests, but the Mercedes scored highest in the adult, child and pedestrian categories. City braking and tyre-pressure monitoring cost extra on the X3, and the Mercedes and Land Rover get one more airbag than the BMW. Security firm Thatcham awarded each car four stars (out of five) for resisting being stolen and three for resisting a break-in. >>

BMW X3 vs Land Rover Discovery Sport vs Mercedes-Benz GLC

OUR VERDICT

Land Rover Discovery Sport 2.0 TD4 180 HSE auto

For Superb practicality; good to drive; slow depreciation; loads of standard equipment

Against So-so performance; infotainment system slow to respond; unsettled low-speed ride

Verdict The best large SUV you can buy for less than £45,000

Mercedes-Benz GLC 250 d AMG Line

For Strong engine: smart and clever interior: low CO₂ Against Fiddly infotainment; smallest inside

Verdict A fine choice if practicality isn't your priority

xDrive20d M Sport auto

For Spacious cabin; brilliant infotainment system Against Overly firm ride; depreciation; safety kit

Verdict Cheaper X3s make far more sense

See how well other large SUVs compare in our buyer's guide on p91

FOR MANY THE biggest surprise here will be the BMW X3 finishing last. Just over a year ago it was our favourite large SUV this side of £50,000, and its fall from grace serves to highlight how quickly the game has moved on in this fiercely competitive class.

However, it's important to point out that cheaper versions of the X3 make a lot more sense than this $range-topping\,M\,Sport\,model,\,not$ only on financial grounds, but also because of their better ride comfort. Nevertheless, it's getting harder

'Cheaper GLC models could be more worth recommending, but for now the Discovery Sport is top of the pile'

and harder to overlook the X3's shortage of standard safety equipment and its comparatively heavy depreciation.

The GLC is one of the best cars Mercedes has launched in years. It's good to drive, smart inside and, in range-topping 250 AMG Line trim, as tested here, both fast and lavishly equipped. It even stacks up well financially for private buyers and company car drivers, which is something we're not used to saying about many modern Mercedes models.

Cheaper and more comfortable GLC models could be even more recommendable, but until we've tried them the Discovery Sport remains top of the pile. The fact it's so much more practical than its rivals is a huge bonus, but it's also the most comfortable of our trio and the most generously equipped. Yes, its diesel engine could do with a bit more oomph and we wish its touchscreen infotainment system was better, but these are relatively small criticisms of what's otherwise a thoroughly brilliant SUV.

Tesco is the official fuel partner for What Car? tests

TESCO Petrol Filling Station

Twin test

THE CONTENDERS

Ford Focus

1.5 Ecoboost 182 Zetec S **Black Edition**

List price £22,520

Target Price £19,975

Designed to offer hot hatch fun without the high cost, although it's the pricier of these two cars.

Seat Leon

1.8 TSI 180 FR 5dr

List price £21,565

Target Price £19,748

Not as extravagant to look at, but the Leon is great value, well equipped and superb to drive.

THINK OF THESE as halfway-house hot hatches. They have enough handling and performance zing to create ripples on the edge of the hot hatch pool, but are considerably cheaper to buy and run than their respective bigger brothers, the Focus ST and Leon Cupra.

The newest contender here is the Focus Black Edition, which comes with a 180bhp turbocharged 1.5-litre petrol engine. Its closest rival is the 178bhp Seat Leon 1.8 TSI FR. It is also turbocharged and claims to offer much the same straight-line pace for a lower asking price, albeit with rather less flamboyant-looking exterior styling.

What are they like to drive?

Despite having virtually the same power outputs, there's a big difference in the way these cars deliver their performance. The Ford's engine is smooth, but feels flat unless you rev it hard, and even then the Focus isn't as nippy as you might expect.

The Leon, in comparison, picks up keenly from low revs and delivers a strong, consistent surge of acceleration that makes it substantially faster and more exciting. In our (wet weather) tests the Seat go from 0-60mph in an impressive 7.9sec, whereas the Focus took a relatively lethargic 9.3sec.

Ford Focus vs Seat Leon

'Despite having the same power, both cars deliver their performance in different ways'

drive that's never intimidating. In fact, it has more front-end grip than the Ford and feels more playful and alive when you corner hard.

The Seat also has the more predictable, natural-feeling steering – the Ford's is overly keen to self-centre – but both cars are easy to manoeuvre at low speeds and are stable on the motorway.

You won't be disappointed with the ride comfort in either car. Both remain settled most of the time and don't thud too harshly over potholes. The Focus displays particularly impressive damping that keeps it feeling planted even over high-speed, mid-corner bumps or compressions. Unsurprisingly, both cars are firmer than less sporty versions in their respective ranges, but neither ever border on being uncomfortable.

Refinement is also a close-run thing. Both have smooth-revving engines that are hushed at a steady cruise. The Seat's sounds rortier when worked hard, but that's something many buyers will appreciate. However, there's also a touch more wind and road noise in the Leon, and its gearshift is slightly notchy compared with the light, slick-feeling shift of the Focus.

What are they like inside?

In most respects neither car differs much from its more humdrum counterparts. The Focus Black Edition (or Red Edition if you choose the reverse colour scheme) gets red stitching on its carpet mats and leather steering wheel. Both also have more heavily bolstered sports seats up front, complete with adjustable lumbar support.

The Seat is fractionally bigger inside. There's a little more leg and head room in the front and back, and the cabin is a touch longer than the Ford's. However, two tall adults will be comfortable in the back of the Focus and there's enough room for a tall driver. The Ford also has the more supportive driver's seat, which holds you in place more >>

Great ride and handling balance, but the Focus's engine has to be revved hard

Big touchscreen looks great, but isn't as easy to use as the system in the Leon

Gearlever and pedals are well placed, and the seat is supportive and comfortable

Better performance gives the Leon the edge over the slower, if still fun, Focus

Leon's gearshifts are slightly clunky compared with the light, silky shifts of the Focus The Seat's steering wheel controls are simple, and the dials are really easy to read

You can feel the Leon's extra pace in its mid-rev response, as well as during hard acceleration. So, while the Focus is punchy enough for swift progress, the Seat is by far the better option if you want a car that feels like an aspiring hot hatch.

Both cars handle extremely well, with tight body control and poised cornering grip. The Focus is well established as one of the best handling cars in the class, and the slightly firmer Zetec S chassis that underpins the Black Edition only makes it feel keener and better suited to hard driving.

The Seat is even more impressive, though, providing an involving

Twin test

Focus has a smaller lip at its boot entrance, which makes loading heavy items easier. It also has the better driving position and more supportive front seats

Focus can't quite match the Leon for head and leg room in the back; a voice control system that reads out text messages is standard on the Black Edition

WHAT IT WILL COST YOU

The cheaper company car, but more expensive on PCP finance

Low costs all-round, although the Focus is more fuel efficient

CHEAPEST TO OWN

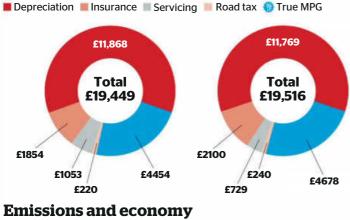

Prices

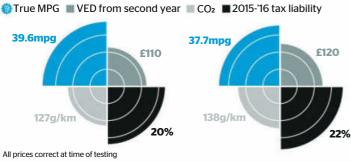

List price	£22,520	£21,565
Target Price	£19,975	£19,748
Company car tax until April 2016/17/18/19	£146/£161/£176/£190 per month	£155/£169/£183/£197 per month

4	£6531 29 %	£6470 30%

Three-year cost

securely than the Leon's flatter seat when cornering quickly.

Although the Focus has a larger touchscreen than the Seat, the Leon's infotainment system is more intuitive and easier to operate while driving. Neither touchscreen is particularly quick to respond, though, and neither car will wow you with the quality of its interior, either – although the Seat feels fractionally better screwed together than the Ford.

In fact, other than its superior front seats, the Focus trails the Leon in virtually every aspect of its interior. Both cars have 60/40 split rear seats, but in the Focus you have to flip up the seat bases before folding down the seat backs, while the whole process is much simpler in the Leon. The Seat also has a deeper, longer boot, making it better if you carry bulky items on a regular basis. It's just a pity there's a hefty lip at the boot entrance.

Both cars provide a decent forward view, but over-theshoulder visibility isn't great in the Focus. It's also a bit harder to judge the Ford's extremities when manoeuvring in a car park.

What will they cost?

The Focus looks very expensive to begin with, but big discounts bring the price down to within £227 of the Leon. Both cars are predicted to depreciate at similar rates, so if you buy outright and sell on after three years, you'll spend a similar amount in the long run whichever one you choose.

The Leon is cheaper to buy on finance. but the Focus costs less as a company car'

Those buying on PCP finance will find the Seat more affordable. If you put down a £4000 deposit on a 36-month contract, with a 12,000-mile annual limit, the Seat will set you back £229 per month compared with the £269 you'll pay for the Ford.

The Focus fights back on company car tax, where it's £9 a month cheaper thanks to its lower CO₂ emissions. Leasing costs are also lower at £249 per month compared with £270 for the Seat. The Focus is the more economical in real-world driving, too, albeit not by much. It averaged 39.6mpg next to the Leon's 37.7mpg in our True MPG tests.

Both cars come with multifunction steering wheels, four electric windows, USB sockets and Bluetooth connectivity as standard. Equipment is more generous in the Leon, though, particularly if you're a private buyer, because you'll get the Technology Pack thrown in for free (if you're a business user you'll need to add £1085 to the price to get it). This pack includes an upgrade to a 6.5in colour touchscreen (from the standard 5.0in display), a DAB radio, sat-nav and LED headlights. This trumps the Focus because it can't be had with LED lights, and sat-nav costs £250 extra – although a DAB radio is standard.

The Leon also comes with dual-zone climate control, cruise control and front and rear parking sensors, while the Focus has manual air-con only. You'll pay £475 to add cruise control and rear parking sensors to the Focus.

Safety also falls in the Leon's favour. It comes with a driver's knee airbag, and while both cars were awarded the maximum five stars from Euro NCAP for their crash protection, the Seat was rated slightly better for adult and child crash protection. Both cars can be had with automatic emergency city braking (£200 on the Ford and £515 on the Leon, but the latter also includes adaptive cruise control that can maintain a set distance from the car in front). Thatcham rates both cars equally highly for resisting theft and break-ins.

Ford Focus vs Seat Leon

The Seat is the best for space and practicality, with the biggest boot, most rear passenger space and simplest seat folding. Shame the driver's seat is quite flat

BEST REAR SEATS

Two six-feet tall adults will fit easily in the Leon's back seats. The £150 Full Link option adds Apple CarPlay and Android Auto for integrated smartphone use

OUR VERDICT

It's worth mentioning that we would recommend the cheaper (and just as fun) lower-powered versions of these cars – the Focus 1.5 150 Zetec S and Seat Leon 1.4 TSI 150 FR – over both of these versions. However, if you want a bit more oomph the Seat is the better buy. Sure, the Focus has exemplary handling, but the Leon is more fun thanks to its swifter acceleration and natural-feeling steering. It's also roomier, cheaper to buy, better equipped and safer, so in the end it wins relatively easily.

Seat Leon 1.8 TSI 180 FR 5dr

For Strong performance; fun yet easy to drive; attractive finance costs Against Bland-looking interior; gearshift isn't quite as slick as the Focus Verdict A great all-rounder, although the 1.4 150 FR is an even better buy

Ford Focus

1.5 Ecoboost 182 Zetec S Black Edition

For Involving handling; fair ride comfort; excellent refinement Against Lacklustre acceleration; higher list price; not as spacious Verdict Fun, but one of the least recommendable Focus editions

THE CONTENDERS

BMW 4 Series Coupé 420d xDrive M Sport auto List price £38,545

Target Price £35,468

Based on the popular 3 Series, so inherits fine handling and a superb infotainment system.

Mercedes-Benz C-Class Coupé C220 d AMG Line auto List price £36,460

Target Price £33,865 New C-Class Coupé has sleek looks similar to the S-Class, combined with a stylish interior.

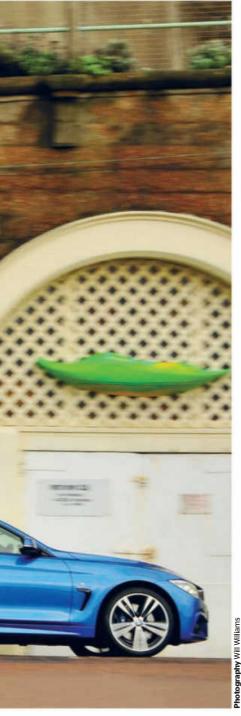

IF YOU'RE IN the market for an executive car but rarely carry more than one passenger, perhaps the idea of a coupé has crossed your mind? In which case, with an all-new Mercedes-Benz C-Class Coupé fresh on to the market, now you have another enviable choice to ponder, but do you plump for the Mercedes, or perhaps the rival BMW 4 Series instead?

Here we're testing the C-Class Coupé in entry-level diesel (C220 d) form but in range-topping, and lavishly equipped, AMG Line trim. The new Mercedes faces the 420d Coupé M Sport, which we'd usually recommend in regular rear-wheeldrive form. However, on this occasion BMW could only provide a four-wheel-drive xDrive model, which adds £1500 to the asking price but compensates with better traction in slippery conditions.

What are they like to drive?

Despite having the bigger engine, the Mercedes trails the BMW for outright power. However, while the four-wheel-drive 4 Series unsurprisingly leaps away from the mark with more vigour, the C-Class actually completed the 30-70mph sprint in less time during our tests. Its engine also starts to pull from lower revs, which means swift

BMW 4 Series Coupé vs Mercedes-Benz C-Class Coupé

'The Merc's body leans a bit more than the BMW's, but the pay-off is the superb ride quality'

If comfort is your thing, you'll find the Mercedes more appealing. Its softest mode allows a touch more body lean through bends than the BMW's equivalent setting, but the trade-off is a wonderfully supple ride over all but the most vicious of potholes. The 4 Series doesn't ride badly, either, but feels that bit firmer overall, resulting in more shimmy over patchy roads.

Switch to the sportier settings and the C220 d becomes unnecessarily bouncy; the 420d, on the other hand, delivers excellent body control and keeps its composure along undulating roads.

However, putting its power through all four wheels robs the BMW of some of its finesse; some of the agility that makes the two-wheel-drive 420d our preferred 4 Series model is lost. Not only that, but the Mercedes has noticeably more front-end grip than its rival through tight twists and turns.

We prefer the Mercedes' steering, too – especially in Comfort mode. It isn't perfect, but is undoubtedly more precise than the BMW's and more feelsome than the steering in some other versions of the C-Class (including the Estate, which you can read about on page 52).

Neither car can claim to be particularly refined. Both engines sound gruff, emitting plenty of diesel clatter under hard acceleration, although the Mercedes' transmits less vibration though its controls and its extra (ninth) gear helps keeps its engine quieter on motorways. Both cars generate a fair amount of wind noise at speed, although the C-Class suffers from less road noise.

What are they like inside?

Much of a coupé's charm comes from the sense of occasion you feel when sliding behind the wheel, and in this regard the Mercedes has the edge. The cabin features an eclectic mix of black ash wood and brushed aluminium trim, while our car was made even swankier by the >>

BMW's xDrive (4WD) aids traction but dilutes the 4 Series' enjoyable handling

The optional eight-speed auto is smooth and uses GPS to pre-select an appropriate gear Dials look smart and are easy to read; driving position is great save for offset pedals

Despite being generally softer, the C-Class offers the more engaging drive

The Mercedes has a good driving position and the classier-looking cabin

Selector lever for the slick nine-speed auto 'box sits behind the steering wheel

progress can generally be achieved in a more relaxed fashion.

Both cars shift smoothly through their gears in automatic mode, although if you are changing gear manually – using the paddles behind the steering wheel - the BMW responds more swiftly to commands and lets you hold on to gears for longer.

Both of our test cars came with upgraded suspension. Our 4 Series had adaptive dampers (£750), while our C-Class came with air suspension (£895). Each system allows you to switch between Normal, Comfort and Sport modes to tailor ride comfort.

Twin test

4 Series has a bigger and better-shaped boot but folding rear seats cost extra. Leather M Sport seats grip you well at the sides but lack lumbar adjustment

Two 6ft tall adults will fit in the rear of the 420d. The 6.5in infotainment screen is smaller than the Merc's but the system is much the more intuitive to use

BMW 4 Series Coupé

WHAT IT WILL COST YOU

Pricier to buy and xDrive worsens MPG and CO₂ emissions

Mercedes-Benz C-Class Coupé

Slightly higher leasing costs but otherwise cheaper to buy and run

Three-year cost

Emissions and economy

optional (£400) leather-effect dashboard finish. Mind you, the Mercedes is let down slightly by flimsy-feeling air vents and a centre console that emits unseemly squeaks when you prod it. The BMW's interior might look a little ordinary by comparison, but it feels more sturdily assembled.

The 4 Series also has the better infotainment system, aside from its slightly smaller screen. It's much easier to use than the Mercedes' system, which can sometimes be so unfathomable that you need to resort to the owner's manual. This is true no matter whether you stick with the standard Garmin-based system or pay an extra £2995 for the more sophisticated Comand system featured on our test car.

Despite having pedals that are offset slightly too far to the right, both cars have excellent driving positions, with low-slung sports seats that hug you tightly at the sides. However, it's certainly easier to get comfortable in the Mercedes, thanks to its standard electric seats with adjustable lumbar support. If you want fully electric seat adjustment on the BMW vou'll need to find an extra £945, although the 4 Series does come with adjustable side bolsters as standard, as well as a seatbelt extender that hands you your belt when you get in the car.

Up front, both cars have plenty of space for taller adults, although if you're much more than six feet tall you'll want to avoid the Mercedes' headroom-robbing optional (£900) panoramic roof.

'Both cars have an excellent driving position, with low-slung seats that grip you tightly'

Both cars have two seats in the back, but the 4 Series' will accommodate a couple of adults in reasonable comfort. By contrast, the C-Class's tighter rear head room means adults won't be as comfortable on long journeys. The BMW also has a slightly bigger and better-shaped boot, too. However, the C220 d comes with split-folding rear seats and a ski hatch, which, again, cost extra on the 4 Series.

What do they cost?

Both cars come with a DAB radio, Bluetooth, heated seats (man-made leather in the C-Class and the real stuff in the 4 Series) and sat-nav. However, with the Mercedes you also get luxuries such as LED headlights (the BMW makes do with xenon units), power-folding door mirrors, and a reversing camera.

Despite the extra kit, the C-Class is cheaper to buy outright and will be worth more after three years and 36,000 miles. For a 40% taxpayer, it's also £2500 cheaper on company car tax over the same period. If you're leasing, however, some of that saving will be wiped out by the £37 extra it costs per month. Buy on PCP finance and there's little to split the two. With a £5000 deposit on a three-year deal (with an annual mileage of 10,000), both will cost just shy of £480 a month.

There's little difference in the amount these two will cost to insure, but servicing the Mercedes over three years will set you back an extra £762. However, the C220 d's lower CO2 emissions and superior real-world fuel economy mean it will cost you less at the pumps and in annual road tax (VED).

Neither car has a Euro NCAP crash rating, but the saloons each is based on (the 3 Series and C-Class) both achieved five-star scores. That said, the Mercedes comes with nine airbags to the BMW's six, along with city braking and a driver-fatigue monitor - both optional extras on the 4 Series. Both come with an alarm and immobiliser, and were awarded a five-star rating from Thatcham for resisting theft, and four stars for withstanding being broken into.

BMW 4 Series Coupé vs Mercedes-Benz C-Class Coupé

Split-folding rear seats are standard, while optional Premium Pack gives you a powered bootlid. Merc's full-electric seats with lumbar support are superb

Taller adults will find the rear seats cramped, but there's plenty of oddment space. Sat-nav is standard but even this upgraded version is clunky to use

The win goes to the Mercedes, but it's close. The 4 Series is still a fine car, and was slightly hamstrung here by an optional four-wheel drive system that blunts performance, cuts efficiency and harms handling.

Nevertheless, the new C-Class is a worthy winner. It's quick, comfortable, good to drive, well equipped and cheaper to run than its rival. A more user-friendly infotainment system may even have earned it an extra star.

Mercedes-Benz C-Class Coupé

C220 d AMG Line auto

For Ride on optional air suspension: decent kit: reasonable running costs Against Clunky infotainment system; less rear seat space; smaller boot Verdict Does the things a coupé needs to that little bit better

BMW 4 Series Coupé

420d xDrive M Sport auto

For Spacious rear seats and boot; infotainment; superior traction Against Noisy; four-wheel drive hinders pace and handling; pricey Verdict Still a fine car, but the rear-wheel-drive version is better

NO FRILLS JUSTAWARDS

THE DACIA SANDERO HAS AGAIN BEEN HONOURED IN THE WHAT CAR? CAR OF THE YEAR AWARDS – AND NOT JUST BECAUSE OF ITS COST

inning an award once is tough. Winning it twice is even harder. But winning a hotly contested award *four years* in a row?

The Dacia Sandero has been named the best small car for less than £12,000 in the *What Car*? Car of the Year Awards – the fourth straight year it has won the trophy. That's an amazing achievement, especially when you consider that, with a starting price of £5,995, you can buy a Sandero for half the amount of the category it competes in.

The Sandero's amazing price is due to Dacia's philosophy of favouring function over frivolity, so you only pay for what you need. But it didn't win the award just because it's good value for money. What Car? editorial director Jim Holder says: "A lot of people see Dacia as a budget brand, but that would be a mistake. The Sandero doesn't have all the frippery of some other cars, but you get all the kit you want and it really is good value for that level."

The What Car? Car of the Year Awards voters put big demands on vehicles in the small car category: they must be affordable and cheap to run, yet still offer decent equipment and be able to cope with a variety of roles. Voters are also looking for comfort and refinement, and the latest safety features.

The Sandero meets those large expectations, without resorting to a large price tag. What Car? noted: "If you're looking for budget motoring, it's hard to go wrong with the Dacia Sandero. In the entry-level specification it's the cheapest new car available in the UK, yet it offers comfortable seating for four adults, plus a big boot."

The entry-level Sandero features a 1.2-litre petrol engine, and has safety features including four airbags and emergency brake assistance. It's spacious too, with enough room for four adults to take a long trip in comfortable. And, as Jim Holder adds: "It's also a really nice car to be in. It doesn't look like a cheap car in any way at all."

WHY THE SANDERO AMBIANCE WON

The *What Car?* Awards voters picked the Sandero 1.2 Ambiance model, which costs £6,795. That small additional outlay is rewarded with features such as air-con, Bluetooth connectivity, electric windows and body-coloured bumpers.

The Sandero isn't just a bargain to buy: it's also hugely cost-effective to run as well. In the *What Car?* True MPG tests the Sandero has scored an impressive 42.8mpg, which is close to the official economy figure of 48.7mpg. It also comes with a

three-year, 60,000-mile warranty as standard – and that can be extended to seven years and 100,000 miles. Competitive finance deals are also available.

It's that incredible value for money which has brought attention and awards to the Dacia Sandero. And the fact it has now triumphed in the *What Car?* Car of the Year Awards four years in a row proves that the Sandero isn't just a great-value car: it's simply a great car.

TRUE MPG STAR CARS

What Car? and Tesco Petrol Filling Station can tell you how economical your car really is

nowing the fuel economy of a car is important, because it relates directly to how much it costs to run – but MPG figures given by car manufactuers are impossible to achieve in real life.

They're set in labs under controlled conditions, so they have little relevance in the real world. To help ensure you know the real cost of motoring, *What Car?* and Tesco Petrol Filling Station, *What Car?*'s official fuel partner, launched True MPG. They test cars in real-world conditions, giving fuel economy figures you can achieve on the road.

To provide an illustration we've highlighted four cars from four different classes that scored noteworthy True MPG results.

UNDER£10,000

Dacia Sandero 1.5 dCi

The no-frills Sandero range starts at £5995. This diesel is £2600 extra, and while it still has basic trim, it does have a strong True MPG of 61.7mpg.

FAMILY CAR

Peugeot 308 1.2 e-THP

While diesels top fuel economy tables, there are some strong petrol performers. The 308 has a True MPG of 49.6mpg, among the best in class.

EXECUTIVE CAR

Mercedes C300 Hybrid

The C300 Hybrid has an official MPG of 78.5. While the True MPG figure of 57.8mpg falls short of that, it still ranks among the best in class.

SUV

Honda CR-V 1.6 i-DTEC

The CR-V is comfortable, has plenty of space and delivers a True MPG figure of 56.5mpg, which is reasonably close to the official figure of 62.0mpg.

What Car? True MPG is run in association with Tesco Petrol Filling Station. To discover your car's True MPG, so that you know the true cost of motoring, visit: tescopfs.com/my-true-mpg

THE TESCO PETROL FILLING STATION DIFFERENCE

CONVENIENCE

Tesco is the UK's biggest seller of fuel, with more than 500 Tesco Petrol Filling Stations around the country

List price £8499 Target Price £8239

MPG 78.4 CO₂ 84g/km

For It has a spacious, practical interior, real-world economy impresses and standard kit is good. **Against** The engine is noisy, the dashboard is old-school and its safety rating is only so-so.

What Car? says

£10,000-£11,000

Hyundai i10

Space and practicality used to be an afterthought in this class, but the i10 has both in spades. The four-cylinder 1.2-litre petrol engine is incredibly refined around town, while the car rides and steers nicely and it's remarkably easy to drive and park. In addition, the cabin uses high-quality materials, there's lots of space for four adults and there's a five-year warranty, all of which make the i10 the complete city car package.

Our pick 1.2 SE List price £10,475

Target Price £9642 MPG 57.6 CO₂ 114g/km

For It's comfortable, roomy and well equipped. The engine is gutsy enough for motorway use. Against A Volkswagen Up is more enjoyable to drive and looks a bit classier inside.

What Car? says ***

Renault Twingo

Our pick 1.0 SCe 70 Dynamique S/S List price £10,995 Target Price £10,452

MPG 67.3 CO₂ 95g/km

For The cabin is spacious, the engine is refined and there are plenty of personalisation options. Against Performance is disappointing and there's

no clutch rest for your foot. What Car? says 🐲 🗯

Fiat 500

Our pick 1.2 Pop

List price £10,890 Target Price £10,272

MPG 60.1 CO₂ 110g/km

For Desirability, quirky looks, a fairly keen price and a petrol engine that loves to be revved.

Against The ride is jittery and the boot is extremely small.

What Car? says ***

Volkswagen Up

Our pick 1.0 75 High Up 3dr

List price £11,500 Target Price £10,929

MPG 60.1 CO₂ 108g/km

For Economical, spacious, comfortable and good to drive. Smarter than other city cars inside.

Against It looks a bit pricey compared with some rivals and the stereo sounds tinny.

What Car? says ****

Vauxhall Adam

Our pick 1.2 Jam

List price £11,860 Target Price £10,891

MPG 53.3 CO₂ 125g/km

For The engine is smooth, the seats are comfortable and you can personalise it.

Against It's noisy at speed, rear space is very tight and it's easy to overspend on options.

What Car? says ***

Peugeot 108

Our pick 1.2 VTi Allure Top 3dr

List price £12,095 Target Price £11,185

MPG 65.7 CO₂ 99g/km

For Good equipment list includes a reversing camera and a full-length fabric sunroof.

Against Boot space and rear legroom are tight. It's a fair bit to pay for a city car.

What Car? says

LESS THAN £12.000

Buv

Dacia Sandero

Our pick 1.2 Ambiance List price £6795 Target Price £6795 MPG 48.7 CO₂ 135g/km

For Lots of space for the money, plus a proven four-cylinder petrol engine from Renault. Against The interior and equipment list are basic, while the low-speed ride is lumpy.

What Car? says ****

Suzuki Swift

Our pick 1.2 SZ3 3dr

List price £10,599 Target Price £9992

MPG 56.5 CO₂ 116g/km

For Lots of equipment as standard and a smart cabin. It's also fun to drive.

Against The engine is noisy and a little gutless at motorway speeds.

What Car? says ***

Seat Ibiza

Our pick 1.0 EcoTSI 95 SE 5dr

List price £11,725 Target Price £9837

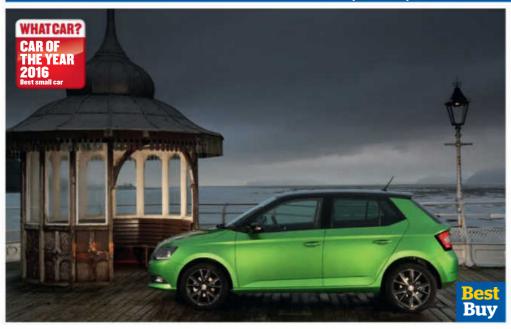

MPG 67.3 CO₂ 98g/km

For Rides and handles well and it has a generous standard kit list and low running costs.

Against The cabin is cramped and the boot is smaller than that of many rivals.

What Car? says

£12,000-£14,000

Skoda Fabia

Last year's Car of the Year is still hugely impressive. The 1.2 TSI engine is smooth yet powerful and returns around 45mpg in the real world; it makes the Fabia feel more than comfortable on the motorway, while the Skoda rides comfortably and is great to drive. SE trim brings alloy wheels, a DAB radio, Bluetooth, air-con and rear parking sensors, and the boot is one of the biggest in the class.

Our pick 1.2 TSI 90 SE List price £13,3900 **Target Price £12,332**

MPG 60.1 CO₂ 107g/km

For There's plenty of space, it handles well and the infotainment set-up is slick.

Against Cabin quality could be better and the ride is unsettled at low speeds.

What Car? says *****

Volkswagen Polo

Our pick 1.2 TSI 90 SE 5dr

List price £14,210 Target Price £13,191

MPG 60.7 CO₂ 107g/km

For Smooth, flexible engine, classy cabin, superb touchscreen system and excellent resale values.

Against The ride is a bit unsettled and a Ford Fiesta is far more fun to drive.

What Car? says

Ford Fiesta

Our pick 1.0T Ecoboost 100 Zetec 5dr List price £14,245 Target Price £12,506

MPG 65.7 CO₂ 99g/km

For Stylish looks, superb handling and a ride that's well suited to British roads.

Against Some of the cabin materials feel a little cheap and the stereo controls are fiddly.

What Car? says ****

MORE THAN £14,000

Mini Hatch 5dr

Our pick Cooper 1.5T Chili Media List price £19,735 Target Price £18,919

MPG 60.1 CO₂ 109g/km

For As fun to drive as the three-door, but with useable rear space and a half-decent boot.

Against The rear door openings are pretty narrow and there's wind and road noise.

What Car? says ***

Audi A1

Our pick 1.4 TFSI 125 Sport

List price £16,690 Target Price £15,888

MPG 57.6 CO₂ 115g/km

For Stylish looks, a high-quality cabin, refined engine and rock-solid resale values.

Against Ride can jar on poorly surfaced urban roads. Rear-seat space is tight.

What Car? says ***

Renault Clio

Our pick 1.5 dCi 90 Dynamique Media Nav

List price £15,975 Target Price £14,592

MPG 83.1 CO₂ 90g/km

For Lots of space and kit, a stylish cabin and impressive cruising refinement and comfort. Against The handling fails to inspire, while the dashboard plastics look cheap.

What Car? says ****

WORRIED ABOUT EXPENSIVE CAR REPAIR BILLS?

Simply the Best in the Business

Vauxhall Astra

Our pick 1.0T 105 Design

List price £15,995 Target Price £14,928

MPG 65.7 CO₂ 99g/km

For Good to drive and well equipped, with a comfortable, roomy cabin.

Against The steering assistance is too light and lumbar adjustment costs extra.

What Car? says ****

Nissan Pulsar

Our pick 1.2 DIG-T Visia

List price £15,995 Target Price £14,760

MPG 56.5 CO₂ 117g/km

For There's plenty of room for occupants and their luggage, and there's lot of equipment.

Against Several rivals have stronger resale values and lower running costs.

What Car? says ****

Seat Leon

Our pick 1.2 TSI 110 SE

List price £17,240 Target Price £15,822

MPG 57.6 CO₂ 114g/km

For The engine is refined, running costs are low and S trim has a decent amount of equipment.

Against Some of the cabin plastics feel cheap and it could be more refined on the motorway.

What Car? says

£16,000-£19,000

Skoda Octavia

The Octavia is so much more than just dependable family transport. The cabin materials and driving position are just as top notch as you'll find in its sister car, the Volkswagen Golf, so drivers of all shapes and sizes will be comfortable. It's also cheaper to run than many of its rivals, and big discounts are possible. Its 590-litre boot also dwarfs anything else available in this class.

Our pick 1.2 TSI 110 SE List price £17,635

Target Price £16,056

MPG 57.7 CO₂ 114g/km

For Lots of space, a high quality cabin and a smooth engine for a competitive price.

Against Unsettled low-speed ride and there's a bit too much wind noise on the motorway.

What Car? says

Vauxhall Astra

Our pick 1.6 CDTi 136 Tech Line List price £18,880 Target Price £17,611

MPG 76.3 CO₂ 99g/km

For Strong performance, good to drive, lots of equipment and a smart, practical cabin.

Against The engine is noisy, the steering is too light and there's no adjustable lumbar support.

What Car? says

Ford Focus

Our pick 1.0T 125 Ecoboost Zetec

List price £18,795 Target Price £16,267

MPG 60.1 CO₂ 108g/km

For Great to drive, with a refined engine, low running costs and easy-to-use infotainment.

Against Rivals are either cheaper to buy and offer more space, more kit or feel better built.

What Car? says

MORE THAN £19,000

Audi A3 Sportback

Our pick 2.0 TDI 150 SE Technik

List price £23,545 Target Price £21,370

MPG 68.9 CO₂ 108g/km

For Punchy, economical engine, quality interior, great to drive and impressive safety features. Against The low-speed ride is a shade firm and you can find more space for this money. What Car? says ****

Skoda Superb

Our pick 1.4 TSI 150 SE

List price £21,190 Target Price £19,540

MPG 57.7 CO₂ 115g/km

For Masses of space for passengers and luggage, it's well equipped and the list price is keen.

Against Unsettled ride on standard suspension and there's a step in the boot floor with the seats folded. What Car? says ****

Volkswagen Golf

Our pick 2.0 TDI 150 Match 5dr

List price £23,425 Target Price £21,487

MPG 68.9 CO₂ 106g/km

For The Golf is brilliant to drive, refined and $practical. \ This \ version \ is \ efficient \ and \ well \ equipped.$ **Against** Cheaper Golfs make more financial sense. The cabin isn't as snazzy as an Audi A3's.

What Car? says ****

Compact executive cars

LESS THAN £25.000

Skoda Superb

Our pick 2.0 TDI 150 SE Business List price £22,090 Target Price £20,368

MPG 68.9 CO₂ 108g/km

For Masses of standard kit, a huge amount of rear leg room and boot space and good to drive. Against Other executive cars are more fun to drive

What Car? says

and have stronger resale values.

Volkswagen Passat

Our pick 2.0 TDI 150 SE

List price £24,435 Target Price £22,352

MPG 67.3 CO₂ 106g/km

For Drives very well, with a good ride and refined diesel engine. The interior is top notch. Against Some rivals are more practical, while

the dashboard design is a bit dull.

What Car? says

Audi A3 Saloon

Our pick 2.0 TDI 150 Sport

List price £25,035 **Target Price** £22,965

MPG 68.9 CO₂ 107g/km

For It handles well, the engine is strong and the cabin is beautifully built.

Against It costs more than the A3 Sportback, despite having a less practical boot.

What Car? says

£25,000-£35,000

Audi A4

We usually advise buyers of compact executives car buyers to stick with four-cylinder-engined versions. Not in this case. Our 2016 Car of the Year has a creamy six-cylinder diesel unit that doesn't drink much more fuel than the 2.0 190 Ultra A4, thanks in part to it driving only the front wheels. The 3.0 TDI also has plenty of pulling power and is a superb motorway cruiser. In fact it feels more like a baby A8.

Our pick 3.0 TDI 218 Sport List price £34,250

Target Price £31,491

MPG 67.3 CO₂ 109g/km For Impressively refined, plenty of pulling power,

beautifully built interior and good economy. Against The auto 'box is a little jerky at low speeds

and adjustable lumbar support costs extra.

What Car? says

BMW 3 Series

Our pick 320d ED Plus auto

List price £32,220 Target Price £29,783

MPG 70.6 **CO₂** 99g/km

For Competitive CO₂ emissions, intelligent automatic gearbox and great to drive. Against You'll need to add adaptive suspension for the best experience.

What Car? says

Jaguar XE

Our pick 2.0d 180 SE auto

List price £32,025 Target Price £30,295

MPG 67.3 CO₂ 109g/km

For Handles brilliantly, rides very well, it's well equipped and CO₂ emissions are keen. Against Rear leg room isn't as good as in the

BMW 3 Series and performance is average. What Car? says ***

MORE THAN £35,000

Audi A4

Our pick 3.0 TDI 272 S Line

List price £38,820 Target Price £35,895

MPG 55.4 **CO₂** 134g/km

For Handles well, impressive performance and four-wheel-drive traction.

Against It's fairly expensive and the lower-powered V6 A4 (above) is even more impressive.

What Car? says ***

BMW 3 Series

Our pick 330d M Sport Sport auto

List price £37,970 Target Price £32,968

MPG 57.6 CO₂ 129g/km

and plenty of standard equipment.

Against There's lots of road noise and there are more economical and more tax efficient rivals. What Car? says ***

Mercedes-Benz C-Class

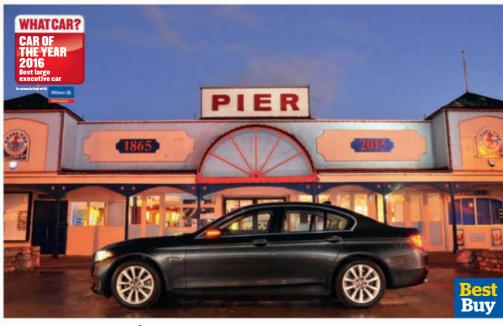

Our pick C300 Hybrid SE

List price £35,440 Target Price £32,137

MPG 78.5 **CO₂** 94g/km

For It's cheap to run as a company car, and has a smart cabin and lots of safety kit. **Against** The diesel engine is gruff and there's too much road and wind noise at speed.

What Car? says ***

BMW 5 Series

The 5 Series might be getting on, but it's still a class leader. In part, this is because the 520d is so well equipped, with sat-nav and leather as standard, but it also has remarkably low emissions and low company car tax costs. Its interior feels nicer than most rivals', refinement is outstanding and the eight-speed auto is sublime. Just make sure you spec the adaptive dampers for the best ride quality.

Our pick 520d SE auto List price £33,515

Target Price £29,474 MPG 68.9 CO₂ 109g/km

For Impressively refined, economical and $tax\text{-}efficient. The \ cabin \ is \ exquisitely \ assembled.$ Against It needs the optional Variable Damper Control to make it ride and handle at its best. What Car? says *****

Jaguar XF

Our pick 2.0D i4 180 Prestige List price £32,800 Target Price £30,624

MPG 65.7 CO₂ 114g/km

For Excellent ride and handling balance, good driving position and reasonable running costs **Against** Boot space and the quality of some interior materials lags behind those of rivals.

What Car? says

Audi A6

Our pick 2.0 TDI 190 Ultra SE List price £31,955 Target Price £27,278

MPG 65.7 CO₂ 113g/km

For Refined, efficient and luxurious, with a spacious interior and a decent equipment roster.

Against The steering feels a little numb and bigger wheels harm the ride.

What Car? says ***

£35.000-£50.000

BMW 5 Series

Our pick 530d Luxury

List price £43,290 Target Price £36,506

MPG 53.3 CO₂ 139g/km

For The engine is smooth and strong, and Luxury trim brings all the goodies you could ever want. Against Variable dampers are an essential option and SE trim is cheaper and still well equipped.

What Car? says ****

Jaguar XF

Our pick 3.0 TDV6 S

List price £49,800 Target Price £46,487

MPG 51.4 CO₂ 144g/km

For Superb ride and handling balance, and plenty of standard equipment.

Against The engine is gruff and boot space and interior quality could be better.

What Car? says ****

Audi A7 Sportback

Our pick 3.0 TDI 218 Ultra SE Executive

List price £45,875 Target Price £38,274

MPG 58.9 CO₂ 124g/km

For An incredibly quiet and efficient engine, a luxurious interior and a large boot.

Against There's a bit too much wind and road noise, and rivals offer more rear-seat room.

What Car? says

MORE THAN £50,000

Mercedes-Benz CLS

Our pick 350d AMG Line

List price £50,550 Target Price £44,693

MPG 52.3 CO₂ 142g/km

For Hugely desirable, combining good refinement with strong performance.

Against It's pricey compared with regular saloons and you need air suspension for the best ride.

What Car? says ****

BMW 6 Series Gran Coupé

Our pick 640d SE

List price £63,765 Target Price £55,866

MPG 51.4 CO₂ 147g/km

For Impressive performance, refinement and economy. The interior is spacious and sumptuous. **Against** Its list price is high and you'll need to pay

more for adaptive dampers. What Car? says ***

Tesla Model S

Our pick 70D

List price £57,335 Target Price £57,335

Range 275 miles CO₂ Og/km

For Impressive performance, reasonable range and it has a smart interior.

Against You'll still get range anxiety and most rivals handle better.

What Car? says ***

Mercedes-Benz S-Class

The S-Class is a supreme luxury car that feels like it should cost double what it does. The key strengths of the S350 are its beautifully finished cabin and impressively refined 3.0-litre diesel engine. The S-Class is comfortable, too, with a sumptuous high-speed ride, and there's plenty of easy-to-use technology on board. To cap it all, the S350's relatively low emissions make it an attractive company car option.

Our pick S350d SE Line L List price £67,850

Target Price £59,827 MPG 50.4 CO₂ 148g/km

For Mixes a supremely comfortable ride with superb refinement. The cabin is sumptuous. Against Some of the most desirable equipment costs extra, including the clever safety aids. What Car? says ****

Jaguar XJ

Our pick 3.0D V6 Luxury

List price £58,545 Target Price £54,641

MPG 46.3 CO₂ 159g/km

For Combines agile handling with a punchy engine. It's lavishly equipped, too.

Against You sit low in the back, yet head room is a bit tight. The ride could be more comfortable. What Car? says

Audi A8

Our pick 3.0 TDI 262 SE Executive L quattro List price £66,660 Target Price £54,396 MPG 48.7 CO₂ 153g/km

For It's refined, well equipped and superbly made. The diesel engine is strong and efficient.

Against You have to go for this pricier L model to get the rear space most buyers expect.

What Car? says ***

£70,000-£100,000

Range Rover

Our pick 3.0 TDV6 Vogue SE

List price £81,850 Target Price £81,850

MPG 40.9 CO₂ 182g/km

For Brilliant on and off road. The high-quality cabin is a fabulous place to spend time.

Against It's pricey to buy and will be more expensive to run than a luxury saloon.

What Car? says ***

Mercedes-Benz S-Class

Our pick S500 L AMG Line

List price £89,150 Target Price £80,168

MPG 31.7 **CO₂** 207g/km

For Superbly quiet and comfortable, and the cabin is as huge as it is classy.

Against It costs a lot more to buy and run than a diesel version. Magic Body Control costs extra. What Car? says

Jaguar XJR

Our pick 5.0 V8

List price £90,655 Target Price £84,649

MPG 24.4 CO₂ 270g/km

For Delivers supercar pace with impressive comfort and refinement.

Against Body control isn't great and the 3.0-litre diesel XJ makes more sense.

What Car? says

MORE THAN £100,000

Rolls-Royce Ghost

Our pick EWB

List price £250,272 Target Price £250,272

MPG 20.8 **CO₂** 317g/km

For The interior is as opulent as the Phantom's and the V12 engine is refined and potent.

Against The low-speed ride is a little pattery over broken road surfaces. What Car? says ***

Range Rover

Our pick 4.4 SDV8 Autobiography LWB List price £106,250 Target Price £106,250

MPG 33.6 CO₂ 219g/km **For** Vast cabin is a wonderful place from which

to survey the outside world. It's refined, too. Against Feels its size in town and the steering requires lots of arm-twirling at parking speeds. What Car? says ***

Mercedes-Benz S-Class

Our pick S63 AMG L

List price £118,725 Target Price £114,038

MPG 28.0 CO₂ 237g/km

For Staggering performance, a comfortable ride and a luxurious cabin that's stacked with kit. Against Costs a lot to buy and run. The gearbox can

dither when pulling away from a standstill.

THE WORLD'S FINEST NUMBER PLATES

CREATE YOUR BESPOKE NUMBER PLATES

Choose your shape and design at FOURDOTDESIGNERPLATES.CO.UK 020 8387 1515

LESS THAN £18.000

Skoda Fabia Estate Our pick 1.2 TSI 90 SE

List price £14,535 Target Price £13,382

MPG 60.1 CO₂ 107g/km

For It's one of the roomiest small estate cars around and SE trim brings air-con and a touchscreen. **Against** The ride is unsettled over poorer surfaces

and the dashboard looks a little dull.

What Car? says *****

Kia Cee'd Sportswagon

Our pick 1.4 CRDi 891 ISG

List price £17,395 Target Price £16,225

MPG 67.3 CO₂ 109g/km

For Lots of space, a high-quality cabin and plenty of equipment for a low price.

Against It's not as good to drive as many rivals and road noise is an issue on coarse surfaces.

What Car? says

Peugeot 308 SW

Our pick 1.2 110 Active

List price £18,545 Target Price £17,074

MPG 60.1 CO₂ 109g/km

For A smooth, willing engine and a smart interior with a decent amount of standard kit.

Against There's plenty of body lean in corners and rear space isn't great for adults.

What Car? says

£18,000-£25,000

Skoda Superb Estate

The Superb wagon is big. Bigger than the Ford Mondeo Estate, which scooped this prize last year. That means five adults will have no trouble getting comfortable for a long journey, and none of them will have to pack light. This engine has bags of low-down torque, yet emits only 109g/km - so company car tax bills will be reasonable. Factor in all the goodies SE Business trim gives you and the Superb Estate is a brilliant estate car.

Our pick 2.0 TDI 150 SE Business List price £23,290

Target Price £21,472

MPG 68.9 CO₂ 109g/km

For There's masses of space for passengers and luggage, it's well priced and well equipped.

Against Some rivals are more fun to drive, while this engine is a little gruff when revved.

What Car? says ****

Ford Mondeo Estate

Our pick 2.0 TDCi 150 Zetec

List price £24,145 Target Price £22,039

MPG 68.9 CO₂ 107g/km

For It's great to drive, has competitive CO, emissions and the boot is massive.

Against Resale values aren't as strong as rivals' and perceived cabin quality is so-so.

What Car? says

Skoda Octavia Estate

Our pick 1.4 TSI 150 SE

List price £20,010 Target Price £18,211

MPG 55.4 **CO₂** 119g/km

For Offers loads of boot and cabin space and equipment for a competitive price.

Against The ride is unsettled and you need to work the engine hard with a full load on board.

What Car? says ****

MORE THAN £25,000

BMW 5 Series Touring

Our pick 520d SE automatic

List price £35,840 Target Price £31,636

MPG 62.8 CO₂ 118g/km

For It's comfortable, has loads of space and a punchy, efficient engine. The cabin is gorgeous. **Against** You must add the optional adaptive suspension to make it ride and handle well. What Car? says ****

Audi A6 Avant

Our pick 2.0 TDI 190 Ultra SE

List price £33,955 Target Price £29,123

MPG 62.8 CO₂ 118g/km

For Refined, efficient and luxurious, with a spacious interior and plenty of equipment. **Against** The steering is numb, while the ride on optional larger wheels is too firm.

What Car? says ***

Volkswagen Passat Estate

Our pick GTE

List price £38,045 Target Price £34,771

MPG 166.0 CO₂ 39g/km

For Low company car BIK tax and the interior is spacious and of a high quality.

Against Comparatively pricey for private buyers and economy is nowhere near the official figure. What Car? says ***

LESS THAN £16.000

Citroën C3 Picasso

Our pick 1.2 Puretech Edition List price £15,805 Target Price £12,074

MPG 56.5 CO₂ 115g/km

For The interior is spacious and the boot is big. Ride comfort and refinement impress.

Against Some rivals are cheaper and the engine feels a bit weedy on faster roads.

What Car? says ****

Ford B-Max

Our pick 1.4 90 Zetec

List price £15,480 Target Price £13,529

MPG 47.1 CO₂ 139g/km

For The engine is eager, Zetec trim brings plenty of kit and rear-seat access is easy. Against There are only five forward gears, so motorway driving can be tiresome.

What Car? says

Peugeot Partner Tepee

Our pick 1.6 BlueHDi 100 Active 7 seats List price £17,180 Target Price £15,410

MPG 68.9 CO₂ 109g/km

For Good value for a seven-seat MPV and there are plenty of storage cubbies.

Against You don't get much equipment, the ride quality is below par and the plastics are poor.

What Car? says ***

£16,000-£25,000

Volkswagen Touran

It might look compact, but the seven-seat Touran contains more useful space than there is in the Citroën Grand C4 Picasso and Ford S-Max, with room for adults in the rear-most seats. Its five rear seats are easy to erect and stow in the boot floor, and getting in and out is a cinch. It's also pretty good value for money when you factor in the Touran's impressive 51mpg real-word fuel economy and solid resale values.

Our pick 1.6 TDI 110 SE List price £25,230

Target Price £23,323

MPG 64.2 CO₂ 116g/km

For Isofix points on all five rear seats, good ride quality, decent economy and spacious interior. Against The engine is a bit gruff and some rivals are more enjoyable to drive.

What Car? says

Citroën Grand C4 Picasso

Our pick 1.6 e-HDi 115 Exclusive List price £23,785 Target Price £20,191

MPG 70.6 CO₂ 105g/km

For Spacious cabin, superb visibility and an economical engine. You get plenty of kit, too. Against The manual gearbox is notchy and the touch-screen control system is fiddly.

What Car? says

Vauxhall Zafira Tourer

Our pick 1.6 CDTi Tech Line

List price £23,175 Target Price £21,852

MPG 68.9 CO₂ 109g/km

For A roomy interior, low ownership costs and a strong diesel engine. It rides and handles well. Against The dashboard is drab and cluttered, and access to the rear seats could be better.

What Car? says ****

Ford Galaxy

Our pick 2.0 TDCi 150 Zetec

List price £28,345 Target Price £26,154

MPG 56.5 CO₂ 129g/km

For The cabin is big, practical and well equipped. It's fun, comfortable and relaxing to drive.

Against It's pricier than the Seat Alhambra to buy and the steering weight is oddly inconsistent.

What Car? says ****

Seat Alhambra

Our pick 2.0 TDI 150 Ecomotive S

List price £26,775 Target Price £24,771

MPG 56.5 CO₂ 130g/km

For Incredibly roomy and practical, yet relatively affordable. It's refined and comfortable, too.

Against The size means parking can be tricky, and the rearmost seats could be easier to fold. What Car? says ****

Ford S-Max

Our pick 2.0 TDCi 150 Zetec

List price £25,995 Target Price £23,533

MPG 56.5 CO₂ 129g/km

For Better to drive than most MPVs, with a comfortable ride and room for seven.

Against Comparatively high price and CO₂ emissions, and sat-nav will cost you extra.

What Car? says ***

LESS THAN £15.000

Buv

Suzuki Vitara

Our pick 1.6 SZ4

List price £13,999 Target Price £13,224

MPG 49.4 CO₂ 123g/km

For The Vitara is good to drive, has a practical interior and SZ4 trim brings lots of equipment. Against CO₂ emissions are comparatively high and the steering weight is too light.

What Car? says ****

Renault Captur

Our pick 0.9 TCe 90 Dynamique Media Nav List price £15,395 Target Price £14,190

MPG 56.5 CO₂ 115g/km

For It's refined, well equipped and roomy for four adults. The sliding rear bench is practical. **Against** The interior plastics feel hard and cheap, while the engine is underpowered.

What Car? says

Kia Soul

Our pick 1.6 CRDi 134 Connect List price £16,600 Target Price £14,723 MPG 58.8 CO₂ 128g/km

For The interior is spacious, Connect trim brings plenty of kit and it's decent to drive.

Against CO2 emissions are comparatively high and the steering feels lifeless.

What Car? says

£15,000-£23,000

Nissan Qashqai

Our 2014 Car of the Year continues to impress, with a well-finished, practical cabin, a chassis that's well suited to Britain's roads and a refined, economical 1.5 diesel. N-tec trim is a bit more expensive than Acenta, but you can get a fair bit of money off if you haggle. The kit list is impressive, too, with sat-nav, dual-zone climate control, DAB radio, keyless entry and a lane departure warning system as standard.

Our pick 1.5 dCi 110 N-tec 2WD

List price £23,450

Target Price £21,520

MPG 74.3 CO₂ 99g/km

For A practical and classy cabin, a comfortable ride, superb refinement and low running costs.

Against It's a little pricey, and the thick front and rear pillars limit visibility.

What Car? says

Skoda Yeti

Our pick 1.2 TSI 105 SE

List price £18,550 Target Price £17,021

MPG 51.4 CO₂ 128g/km

For Lots of cabin space, sharp steering and fine body control. The petrol engine is punchy.

Against The ride is unsettled and there's too much wind and road noise at motorway speeds.

What Car? says ****

Honda HR-V

Our pick 1.6 i-DTEC 120 SE Navi

List price £23,050 Target Price £21,828

MPG 68.9 CO₂ 108g/km

For Clever seating gives it a practical interior and the engine performs strongly.

Against The engine is very noisy, the ride comfort could be better and the touchscreen is fiddly to use.

What Car? says ****

MORE THAN £23,000

BMW X1

Our pick sDrive18d SE

List price £26,780 Target Price £25,480

MPG 68.9 **CO₂** 109g/km

For Spacious, practical and high quality interior, handles well and has a great infotainment set-up. Against There's far too much road noise and the ride may be too firm for some.

What Car? says ***

Nissan Qashqai

Our pick 1.6 dCi 130 Tekna

List price £26,145 Target Price £23,993

MPG 61.4 **CO₂** 120g/km

For Comes with plenty of equipment and a classy, practical cabin, and is great to drive.

Against Company car tax is higher than that of rivals and this version is fairly pricey to buy.

What Car? says ****

Renault Kadjar

Our pick 1.6 dCi 130 Dynamique S Nav 4WD List price £25,095 Target Price £23,934

MPG 57.6 **CO₂** 126g/km

For Competitive running costs, spacious interior and good to drive, with all-wheel drive traction. **Against** The same engine is more refined in the Qashqai, which is also even better on the road. What Car? says

Mazda CX-5

Our pick 2.2d 150 SE-L Nav 2WD List price £24,995 Target Price £23,249

MPG 61.4 CO₂ 119g/km

For Lots of space and kit for a good price, while CO₂ emissions and economy are impressive. Against Firm low-speed ride, and wind and road

noise can intrude at speed. What Car? says ****

Nissan X-Trail

Our pick 1.6 dCi Acenta 2WD List price £24,795 Target Price £22,568 MPG 57.6 CO₂ 129g/km

For It's comfortable, has a spacious and classy interior, a large boot and lots of equipment. Against Body control is sloppy and the diesel engine is noisy.

What Car? says ****

Honda CR-V

Our pick 1.6 i-DTEC 120 SE

List price £25,570 Target Price £23,395

MPG 64.2 CO₂ 115g/km

For The engine is economical and powerful, while there's plenty of space in the cabin and boot. Against Performance is flat at low revs and the engine sounds coarse at high revs.

What Car? says

£25,000-£40,000

Land Rover Discovery Sport

With the Ingenium diesel engine installed, the Discovery Sport has become one of the very best large SUVs on sale today. This engine is far more refined than the old one, emits less CO2 and drinks less fuel. The Land Rover remains good to drive, too, with nicely weighted steering and a comfortable ride. It comes with seven seats as standard, most of which provide generous head and leg room. There's even a decent-sized boot.

Our pick 2.0 TD4 180 SE Tech auto

List price £35,570

Target Price £35,345

MPG 53.3 CO₂ 139g/km

For It handles well, the cabin is smart and practical, the engine is refined and resale values are strong.

Against The ride is a bit fidgety at lower speeds and there's limited room in the rearmost seats.

What Car? says ***

BMW X3

Our pick xDrive20d SE automatic List price £34,375 Target Price £32,702

MPG 56.5 CO₂ 131g/km

For It's spacious and efficient, and good to drive with the optional adaptive suspension fitted. Against Some may find the steering too heavy

and the optional extras are expensive.

What Car? says ****

Kia Sorento

Our pick 2.2 CRDi KX-2 automatic

List price £33,400 Target Price £31,294

MPG 42.2 CO₂ 177g/km

For Roomy seven-seater with a comfortable ride and a smart, user-friendly interior.

Against Emissions and economy are relatively high and the steering feels pretty vague.

What Car? says

Audi Q7

Our pick 3.0 TDI quattro 272 SE

List price £50,160 Target Price £46,209

MPG 47.9 CO₂ 153g/km

For It's very well equipped, has a smooth and powerful engine and a great ride.

Against It's expensive to buy and run, and body control is poor in bends.

What Car? says

Range Rover Sport

Our pick 3.0 SDV6 HSE

List price £61,950 Target Price £61,643

MPG 40.5 **CO₂** 185g/km

For The Sport is a quiet cruiser with a classy, roomy interior and a comfortable ride.

Against It's expensive to buy and the touch-screen system is slow and fiddly.

What Car? says ****

Volvo XC90

Our pick D5 Momentum

List price £45,750 Target Price £45,750

MPG 49.6 **CO₂** 149g/km

For It has a big, classy interior, a refined diesel engine and lots of standard equipment.

Against The ride isn't as smooth as you'd think and there's plenty of suspension noise.

What Car? says

LESS THAN £25,000

Mazda MX-5

This is a car with next to no rivals. The rearwheel-drive MX-5 is small enough to suit UK roads perfectly, and even in 158bhp 2.0-litre guise is unintimidating enough to allow you to enjoy 100% of its punch every day. SE-L Nav trim comes with climate and cruise controls, LED headlights and a leather-trimmed, multifunction steering wheel, plus sat-nav, Bluetooth and a decent sound system.

Our pick 2.0 SE-L Nav List price £20,515

Target Price £19,957 MPG 40.9 CO₂ 161g/km

For Terrific handling and steering with a comfortable ride and a slick gearshift.

Against Rivals have bigger boots, while the cabin feels pretty snug.

What Car? says ****

Volkswagen Beetle Cabriolet

Our pick 1.2 TSI 105

List price £19,135 Target Price £16,544

MPG 50.4 CO₂ 129g/km

For It looks like nothing else and will hold its value well. The engine is smooth.

Against There's not much space in the rear seats and the ride is unsettled.

What Car? says

Citroën DS3 Cabriolet

Our pick 1.2 Puretech 110 DStyle

List price £17,995 **Target Price** £16,830

MPG 60.1 CO₂ 107g/km

For The interior is chic, classy and well equipped and the engine is strong and flexible.

Against The roof pillars stay in place, so it's not a full open-top. Rear visibility is awful.

What Car? says

£25.000-£35.000

Audi A3 Cabriolet

Our pick 1.4 TFSI 150 Sport Nav **List price** £27,775 **Target Price** £25,202

MPG 56.5 CO₂ 116g/km

For It's comfortable and good to drive, and the cabin is classy. The boot is a good size.

Against Roof-down driving is blustery without the optional wind deflector raised.

What Car? says ****

BMW 2 Series Convertible

Our pick 220d Sport

Buy

Buv

List price £30,500 Target Price £28,048

MPG 64.2 CO₂ 116g/km

For Sport trim brings lots of equipment, the 2 Series is good to drive and iDrive is easy to use.

Against The manual gearbox isn't the slickest and the diesel engine isn't as refined as some rivals'.

What Car? says ***

Volkswagen Golf Cabriolet

Our pick 1.4 TSI 150 GT

List price £27,985 Target Price £23,608

MPG 44.1 CO₂ 149g/km

For It handles well, there's plenty of space for four and the roof is quick to operate.

Against There's a bit too much wind noise on the motorway and the boot opening is small.

What Car? says ***

MORE THAN £35,000

BMW 4 Series Convertible

Our pick 420d SE auto

List price £38,800 Target Price £35,234

MPG 64.2 **CO₂** 124g/km

For Strong performance but relatively low running costs. It's comfortable and has a high quality cabin. **Against** The engine is noisy and boot space is poor with the roof lowered.

What Car? says *****

Audi TT Roadster

Our pick 2.0 TFSI quattro S line S tronic List price £37,415 Target Price £34,093 **MPG** 40.9 **CO₂** 158g/km

For The soft-topped TT is brilliant to drive, has a stunning interior and is refined with the roof up. Against There's more wind buffeting than you might expect with the roof down.

What Car? says ****

Mercedes-Benz E-Class Cabriolet

Our pick E220 Bluetec SE automatic List price £42,480 Target Price £35,779

MPG 55.4 CO₂ 132g/km

For It's relaxing to drive and the diesel engine is efficient. It's nicely finished inside.

Against The engine can sound gruff and there's not much room in the boot.

What Car? says ***

LESS THAN £15.000

Buv

Suzuki Swift

Our pick 1.6 Sport 3dr List price £13,859 Target Price £13,067

MPG 44.1 CO₂ 147g/km

For Loves to be thrashed, thanks to a rev-hungry engine and snappy gearchange.

Against The cabin is plain, so there's none of the 'wow' factor that hot hatch buyers crave.

What Car? says

Seat Ibiza SC FR

Our pick 1.4 TSI 150

List price £16,245 Target Price £13,995

MPG 60.1 CO₂ 109g/km

For Gutsy engine, low running costs, plenty of equipment and a spacious interior.

Against Some rivals are more fun to drive and the cabin plastics feel cheap.

What Car? says ***

Fiat 500 Abarth

Our pick 1.4 T-Jet

List price £14,610 Target Price £14,610

MPG 43.5 CO₂ 155g/km

For Small hot hatches don't get any more stylish and the Abarth is certainly rapid.

Against The ride is harsh and the power delivery is uneven.

What Car? says

£15,000-£20,000

Ford Fiesta ST

The Fiesta ST is everything you want in a hot hatch. Fast enough to thrill, small enough to fit down tight back roads and with alert, cornerhungry handling that's joyful even on mundane roads. It really does feel like a mini rally car for the road, with its brash exhaust note and incisive handling. It doesn't even cost that much in ST-2 trim, which gives you heated Recaro seats, a DAB radio and multiple connectivity options.

Our pick ST-2 List price £18,645

Target Price £16,926

MPG 47.9 CO₂ 138g/km

For Utterly brilliant to drive fast, sounds great and is temptingly priced.

Against The very firm, bouncy ride can be wearing on long journeys

What Car? says

Renault Clio Renaultsport

Our pick 200

List price £19,000 Target Price £17,770

MPG 44.8 CO₂ 144g/km

For It's comfortable, there's plenty of grip and the turbo engine gives impressive pace.

Against There's no manual gearbox and it's not as much fun to drive as some rivals.

What Car? says

Mini Cooper S

Our pick 2.0 3dr

List price £18,840 Target Price £18,063

MPG 49.6 CO₂ 133g/km

For It's quick and desirable. Strong resale values and low running costs make it sensible to own.

Against It's a bit too sensible to drive, so look elsewhere if you're after genuine thrills.

What Car? says

MORE THAN £20,000

BMW M135i

Our pick 3dr Sport automatic

List price £33,205 Target Price £29,670

MPG 37.7 CO₂ 175g/km

For Staggering performance and the ride is remarkably smooth for something so fast.

Against It won't be cheap to run and you may wish for bolder styling.

What Car? says ****

Volkswagen Golf GTI

Our pick 3dr

List price £27,370 Target Price £25,108

MPG 47.1 CO₂ 139g/km

For Fast and capable, yet also refined and easy to drive. It has a roomy, classy cabin, too.

Against It's not as thrilling to drive as the best hot hatches and is on the pricey side.

What Car? says ****

Renault Mégane Renaultsport

Our pick 275 Trophy

List price £28,930 Target Price £28,930

MPG 37.7 CO₂ 174g/km

For Offers a superb mix of power, poise and precision. It also sounds great.

Against The ride is hard and over-the-shoulder visibility is woeful.

What Car? says ★★★★

Buv

Seat Leon SC

Our pick 1.4 EcoTSI 150 FR

List price £20,225 Target Price £18,561

MPG 57.6 CO₂ 114g/km

For It's quick, agile, economical and excellent value. There's good space for people and bags.

Against A few bits of cabin trim feel low-rent and there's too much wind noise at speed.

What Car? says

LESS THAN £25.000

BMW 2 Series

Our pick 218d SE

List price £25,100 Target Price £23,276

MPG 62.8 CO₂ 119g/km

For It rides and handles well, and the diesel engine is punchy and economical.

Against The rear seats are cramped for adults and the engine is noisy.

What Car? says ****

Volkswagen Scirocco

Our pick 2.0 TDI 150 GT

List price £25,025 Target Price £22,951

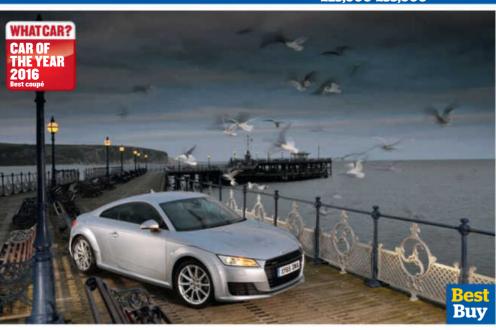

MPG 67.3 CO₂ 109g/km

For Good to drive, with quick steering and fine handling and strong resale values.

Against The ride is too choppy, and its Golf sibling is cheaper and better to drive.

What Car? says

£25,000-£35,000

Audi TT

The Mk3 TT might not look a whole lot different from the Mk2, but it's significantly better in a number of key areas. For starters it's lighter, which helps make it more agile than any of its rivals. The TT also has more power than before, so although we're recommending the entry-level petrol version it's still seriously rapid. It also has one of the finest cabins around, with sumptuous materials and a Virtual Cockpit display.

Our pick 2.0 TFSI 230 Sport

List price £30,215

Target Price £27,160

MPG 46.3 CO₂ 141g/km

For Brilliant to drive, with a beautifully built, high-tech interior.

Against It could be better equipped and the gearshift has a longer throw than we'd like. What Car? says

BMW 2 Series Our pick M235i auto

MPG 37.2 CO₂ 176g/km

Peugeot RCZ

Our pick R

List price £32,250 Target Price £32,250

List price £36,420 Target Price £33,861

and will cost you a fair bit in fuel. What Car? says ***

For It's blisteringly fast, fun to drive, sounds fantastic and has an upmarket interior. Against It's not as grippy as some sporty coupés

MPG 44.8 CO₂ 145g/km

For Grippy handling, potent performance, striking looks and plenty of equipment.

Against The rear seats are seriously cramped, and the steering and gearchange are vague.

What Car? says ****

MORE THAN £35,000

Jaguar F-Type Coupé

Our pick 3.0 V6 auto

List price £53,555 Target Price £51,195

MPG 33.6 **CO₂** 199g/km

For Outstanding performance and handling, and a classy cabin. It's relatively good value, too. Against The automatic gearbox can be slow to

respond and the touch-screen system is fiddly. What Car? says ***

BMW 4 Series

Our pick 435i M Sport Sport automatic

List price £43,430 Target Price £38,283

MPG 39.2 CO₂ 169g/km

For It's effortlessly fast, handles well, is classy inside and practical by coupé standards.

Against It's costly to run and needs the adaptive suspension for the best ride and handling.

What Car? says ***

Bentley Continental GT

Our pick 4.0 V8 S

List price £139,000 Target Price £139,000

MPG 26.8 CO₂ 246g/km

For The engine provides huge pace and a truly great noise. This S model is the best GT to drive.

Against It's massively expensive to buy and run, while refinement should be better.

What Car? says ***

Porsche Boxster

It would be easy to dismiss the Boxster as a poor man's 911. That couldn't be further from the truth. It feels fast enough to thrill without being intimidating and, combined with terrific handling, it's the sort of car that makes you want to get up early and seek out a quiet road. The Boxster gets key niceties, such as a colour touchscreen and part-electric seat adjustment, so all you really need to add is sat-nav and DAB.

Our pick 2.7 List price £40,083 Target Price £40,083

MPG 33.6 CO₂ 195g/km

For Huge grip, agile responses and superb pace. It's also practical and quiet with the roof up. Against You don't get much equipment as standard.

What Car? says

Porsche Cayman

Our pick 3.4 S

List price £49,478 Target Price £49,478

MPG 31.4 CO₂ 211g/km

For Combines sublime handling with a classy cabin and decent practicality.

Against The standard equipment list is stingy and there's a bit too much road noise.

What Car? says

Audi RS3

Our pick 2.5T

List price £40,795 Target Price £40,795

MPG 34.9 CO₂ 189g/km

For Very quick, good steering, ride on adaptive dampers and a practical, quality interior.

Against It's more expensive to buy and run than its main rivals.

What Car? says

£50.000-£100.000

Porsche 911

Our pick 3.0 Carrera

List price £76,942 Target Price £76,942

MPG 38.2 CO₂ 169g/km

For It's seriously rapid and grippy, yet also refined and comfortable.

Against Some V8-engined rivals are even quicker and standard kit isn't generous.

What Car? says ****

BMW M3

Our pick 3.0T M DCT

List price £59,090 Target Price £56,347

MPG 34.0 CO₂ 194g/km

For It can be exhilarating to drive, yet is also pretty civilised. There's genuine room for four.

Against You have to drive the M3 hard before it comes alive and there's too much road noise.

What Car? says ****

Porsche Cayman

Our pick 3.4 GTS

List price £56,092 Target Price £56,092

MPG 31.4 CO₂ 211g/km

For Brilliant to drive, the GTS combines wonderful handling with a classy interior.

Against It gets more kit than other Caymans, but the equipment roster is still pretty stingy.

What Car? says

MORE THAN £100,000

McLaren 570S

Our pick 3.8 V8

List price £144,405 Target Price £144,405

MPG 25.4 CO₂ 258g/km

For Jaw-dropping speed, composure and grip, yet it's also comfortable.

Against The low-speed ride is a little unsettled and some rivals sound even better.

What Car? says ****

Ferrari 458 Italia

Our pick Speciale

List price £208,090 Target Price £208,090

MPG 21.2 CO₂ 307g/km

For Awesome performance, terrific noise and a chassis that makes any driver feel special.

Against You don't even get a radio as standard and the steering wheel buttons may confuse. What Car? says ****

Porsche 911

Our pick 3.8 GT3

List price £101,695 Target Price £101,695

MPG 23.0 CO₂ 289g/km

For Incredibly fast and exciting to drive - on road or track. It's also a comparative bargain.

Against Other 911s are plusher and easier to live with, so you have to be committed to go for one.

What Car? says ****

KEY INFORMATION

Verdict Our road test reviews are the standard by which the car industry judges new cars.

Price on the road The price set by car makers, including delivery and the variable rate of Vehicle Excise Duty (VED).

Contract hire Contract hire rental prices supplied by Wessex Fleet Solutions. These are based on a three-year/36,000-mile contract, excluding maintenance and VED. For quotes, call Wessex Fleet Solutions on 01722 322888.

Target Price The Target Price tells you the most you should pay - start low and work up to it. If your dealer won't match it, we'll give you one who will: call 0845 527 6394* All Target Prices are correct at the time of going to press.

*Calls cost 5p per minute plus your standard access charge

Government MPG Based on official EU tests, this figure is a weighted average of two tests: Urban (cold start, average 12mph) and Extra Urban (warm start, average 39mph). Note: the official fuel consumption figures are published as a guide only.

True MPG What Car? True MPG is our own average fuel economy figure. It's calculated over 50 miles of real UK roads (rather than in a lab). To get your personalised data, visit whatcar.com/truempg

CO2/tax liability Company car tax is charged on a sliding scale based on carbon dioxide (CO₂) emissions. Our tax liability figures show the percentage of the list price (including options) on which you will be taxed. The scale alters each April.

VED rating Vehicle Excise Duty, or road tax, is calculated on a sliding scale according to the vehicle's CO2 emissions. Alternatively fuelled cars (hybrids, for example) attract a £10 discount on all VED rates.

Band	CO ₂ emissions (g/km)	1st year	2nd year on
Α	Up to 100	£O	£O
В	101-110	£O	£20

Business or Personal Contract Hire.

Hire Purchase, PCP and Outright Purchase also available.

6 to 48-month contract hire terms available on our website.

Up to 20,000 car, van and double-cab deals available on our website.

Mileages from 5,000 to 30,000 available, with or without maintenance.

Vehicles from stock or can be factory ordered to your own spec.

Visit our website now for all the best deals. www.new-car-deal.co.uk

Moto-Deal Ltd trading as New-Car-Deal is fully authorised and regulated by the Financial Conduct Authority for 'credit broking' on ref no FRN675571. We are not a funder, we are a broker. Finance is supplied by various funders from which we may receive a commission.

Contract hire and leasing

We tell you about fitting accessories, maintenance deals and PCP vs contract hire

What's the difference between contract hire and leasing?

'Leasing' is a catch-all term that includes finance lease and lease purchase, as well as contract hire, which is a form of leasing.

Should I go for contract hire or a PCP arrangement?

Although monthly payments are often similar, at the end of the deal a PCP gives you the flexibility to own the car for an extra lump sum, or put a deposit down on another deal. If you have to terminate the deal early, contract hire often carries a penalty of 50% of the outstanding rental; the penalties on a PCP are much smaller.

With contract hire, VAT-registered users can reclaim VAT on some of the finance and maintenance costs.

Does it make sense to take out a 'with maintenance' agreement?

Companies go for these as it makes budgeting easier. For private buyers, the fixed cost can also be reassuring, but you should work out whether it is cheaper to pay for your own maintenance. Generally, the higher your mileage, usually one in excess of 20,000 miles, the more viable a maintenance agreement becomes.

Can I fit accessories to a car on contract hire?

You need to get the permission of the leasing company before you add any accessories, and it is up to you to remove these accessories and make good any damage.

Hot Topic

What's the final damage?

Do leasing firms sting you for any damage to your car at the end of a contract hire deal? Billy Prince, Bristol

The bill for any damage at the end of a contract is known as a dilapidation charge. Be warned, the distinction between 'damage' and 'fair wear and tear' can vary, as can charges for putting it right. The best firms follow British Vehicle Rental and Leasing Association guidelines.

Capital Car Finance

We have no call centres, all our staff offer professional, friendly, FREE advice.

We specialise in discounted low rate PCP and Lease Purchase Finance schemes.

Already found your car? No problem, we can arrange your PCP or Lease Purchase.

We have no fewer than 7 different lenders for PCP and Lease Purchase.

Personal Contract Purchase on cars up to 3 years old

Lease Purchase lowest finance rate ever!

Brokers

What about delivery dates, sourcing reliable used cars, finder's fees and giving a broker money up front?

A BROKER CLAIMS HE CAN SUPPLY ME WITH A NEW BMW X5 SOONER THAN MY LOCAL DEALER CAN.

Is this possible?

It could be that the broker pre-ordered a new X5 on the basis that he'd be able to find a buyer for it, or he may have a cancelled order. In either case, it is possible that you could beat the dealer waiting list, but quiz him about the basis for his claim. If it's one of the two cases above, ask to see the proof, make sure the car has the same engine and trim that you want, and remember that you won't be able to choose the spec if the car has been ordered. Get the delivery date in writing, too.

I'VE SEEN A BROKER WHO IS CHARGING A FINDER'S FEE OF £1000.

Is this right?

Shop elsewhere. There is nothing to stop brokers charging finder's fees, even as high as this. However, unless the car is very exclusive or you're jumping a long queue for an in-demand model, £1000 is steep. As a general rule, most reputable brokers earn their commission from the dealer, not the customer so be wary if you're asked to pay the broker any money.

IS IT SAFE TO PAY MONEY TO A BROKER BEFORE I'VE TAKEN DELIVERY OF A CAR?

It puts you in a very vulnerable position, even if the broker is trustworthy. If the broker goes bust before your car has arrived, you may not see the car or the money. The safest options are to use a broker who insists you pay the dealer directly for the car, or pay the money into an 'escrow' holding account until the car is ready for delivery. If you have handed cash to a broker, get written proof that the supplying dealer has received your money.

CAN BROKERS SUPPLY USED AS WELL AS NEW CARS?

Yes. The majority of new-car brokers also supply nearly new motors and the savings compared with the DIY route are broadly similar. Likewise, the usual caveats about using a broker also apply.

Also, if the car is only a few months old, it's worth ensuring that it isn't a 'dealer return' - a new car returned by a customer because it was sub-standard.

IF I BUY FROM A BROKER, WHAT FINANCE AND WARRANTY CAN I EXPECT?

Most brokers don't offer finance directly, but they can notify the dealer that you're interested in paying for your car this way, and from then on, your dealer will discuss your options with you and conduct the transaction as normal. Every new car, whether you find it in a showroom or via a broker, comes with a full manufacturer's warranty.

WHEREDOBROKERSSOURCE THEIR CARS?

Although some brokers specialise in imports, the majority deal in UK models, supplied by UK dealers. They've already negotiated discounts, so save you hassle and time but it's possible to beat a broker's price if you're determined. Most brokers refer you to the dealer, and from then on you deal direct. As the car is supplied by a dealer you have a right to expect the same service as if you'd walked in off the street.

Hot Topic

Pre-reg cars: what's the risk?

If I buy through a broker, will I be the car's first registered keeper?

Sharon Jones, Carlisle

Ask to see the broker's terms and conditions before you buy. Some 'rogue' companies pre-register cars to claim manufacturer fleet discounts. However, while you might save a bit of money, this can be risky - you could invalidate your insurance. Reputable brokers only sell cars ordered through dealers where you are the first registered keeper. Get this assurance in writing, and don't 'accept' the car until you are in receipt of the V5C.

"At UK New Cars, we believe in the core values of Pricing, Process and Quality throughout every stage of your order "

Sam Shah - Managing Director

Our service - how it all works

Pricing

We have fantastic relationships with the dealer panel we work with - and because we place hundreds of orders with them each year, we are able to attain very large corporate levels of discounts which we can then pass on to individual retail customers. There are several different factors which can influence what represents a competitive price, including: dealer margin discount, registration support and finance deposit contributions — it is therefore very difficult to ascertain whether the package offered by a local dealer represents good value or not. Using our expertise, we can ensure that any confusion is eliminated and customers have the confidence to purchase knowing that they have been offered a very strong deal which maximises savings in all areas.

Process

All cars are sourced directly from official manufacturer UK franchised dealerships and are never imported or pre-registered. They are always brand new, with the customer being the first registered keeper of the vehicle. When the customer wishes to proceed with an order, we send the details to the relevant main dealer, who will then get in touch with the customer to introduce themselves, confirm the full order details and collect a deposit — the customer will then have a direct relationship with the dealer going forwards. All payments will be between the customer and dealer as will the contract for purchase. It is therefore very safe and secure with no payment being made to us as the broker at any time.

Quality

We believe very strongly that customer service should be exemplary at all times — from first enquiry through to handover of the vehicle. Our ethos is to bring integrity back to buying a brand new car and we want to develop long term relationships with our customers where they can build confidence and trust in us to enhance all aspects of their purchase experience. We do not work with a large panel of dealerships per brand as we feel this can dilute service levels — rather we work with carefully selected partners that are trustworthy, reliable and who we know will echo our core values to ensure that our customers are going to be in the very best of hands at all times.

The bar just got raised.

Introducing the AlcoSense Pro breathalyser

Using a smaller version of the **SAME fuel cell alcohol sensor as several UK Police breathalysers**, the AlcoSense Pro offers levels of accuracy, reliability and functionality not seen at this price point before.

With AlcoSense's Patent Pending technology, it's also feature rich and unbelievably easy to use. Travelling cross-border? Just select the country/region from the menu and the Pro does the rest. Curious how long it will take until you're sober? The Pro will tell you. Blow incorrectly during a breath test and BlowCoach™ gives you real-time feedback and tells you exactly how to correct it.

Find out more or purchase at your local Halfords and selected Boots stores, or online at alcosense.co.uk/pro

Available at Halfords nationwide & selected Boots stores

Order securely at alcosense.co.uk or call 0800 195 0088
